[57] **CLAIM**

The ornamental design for a module for selective signal response, as shown and described.

DESCRIPTION

FIG. **1** is a top, left and front perspective view of a module for selective signal response showing our new design;
FIG. **2** is a top, left and front perspective view thereof with the cover open;
FIG. **3** is a front elevational view thereof;
FIG. **4** is a right side elevational view thereof, the left side elevational view being a mirror image;
FIG. **5** is a rear elevational view thereof;
FIG. **6** is a top plan view thereof;
FIG. **7** is a bottom plan view thereof.
FIG. **8** is a front elevational view thereof with the cover open, and
FIG. **9** is a right side elevational view thereof with the cover open, the right side elevational view being a mirror image.
