[57] **CLAIM**

The ornamental design for a three dimensional simulated animal head or similar article, as shown and described.

DESCRIPTION

FIG. 1 is a side view of a three dimensional simulated animal head or similar article embodying our new design with the ears, mouth and body being shown in broken lines for illustrative purposes only;

FIG. 2 is a view of the three dimensional simulated animal head or similar article of FIG. 1 looking generally in the direction of arrows 2—2;

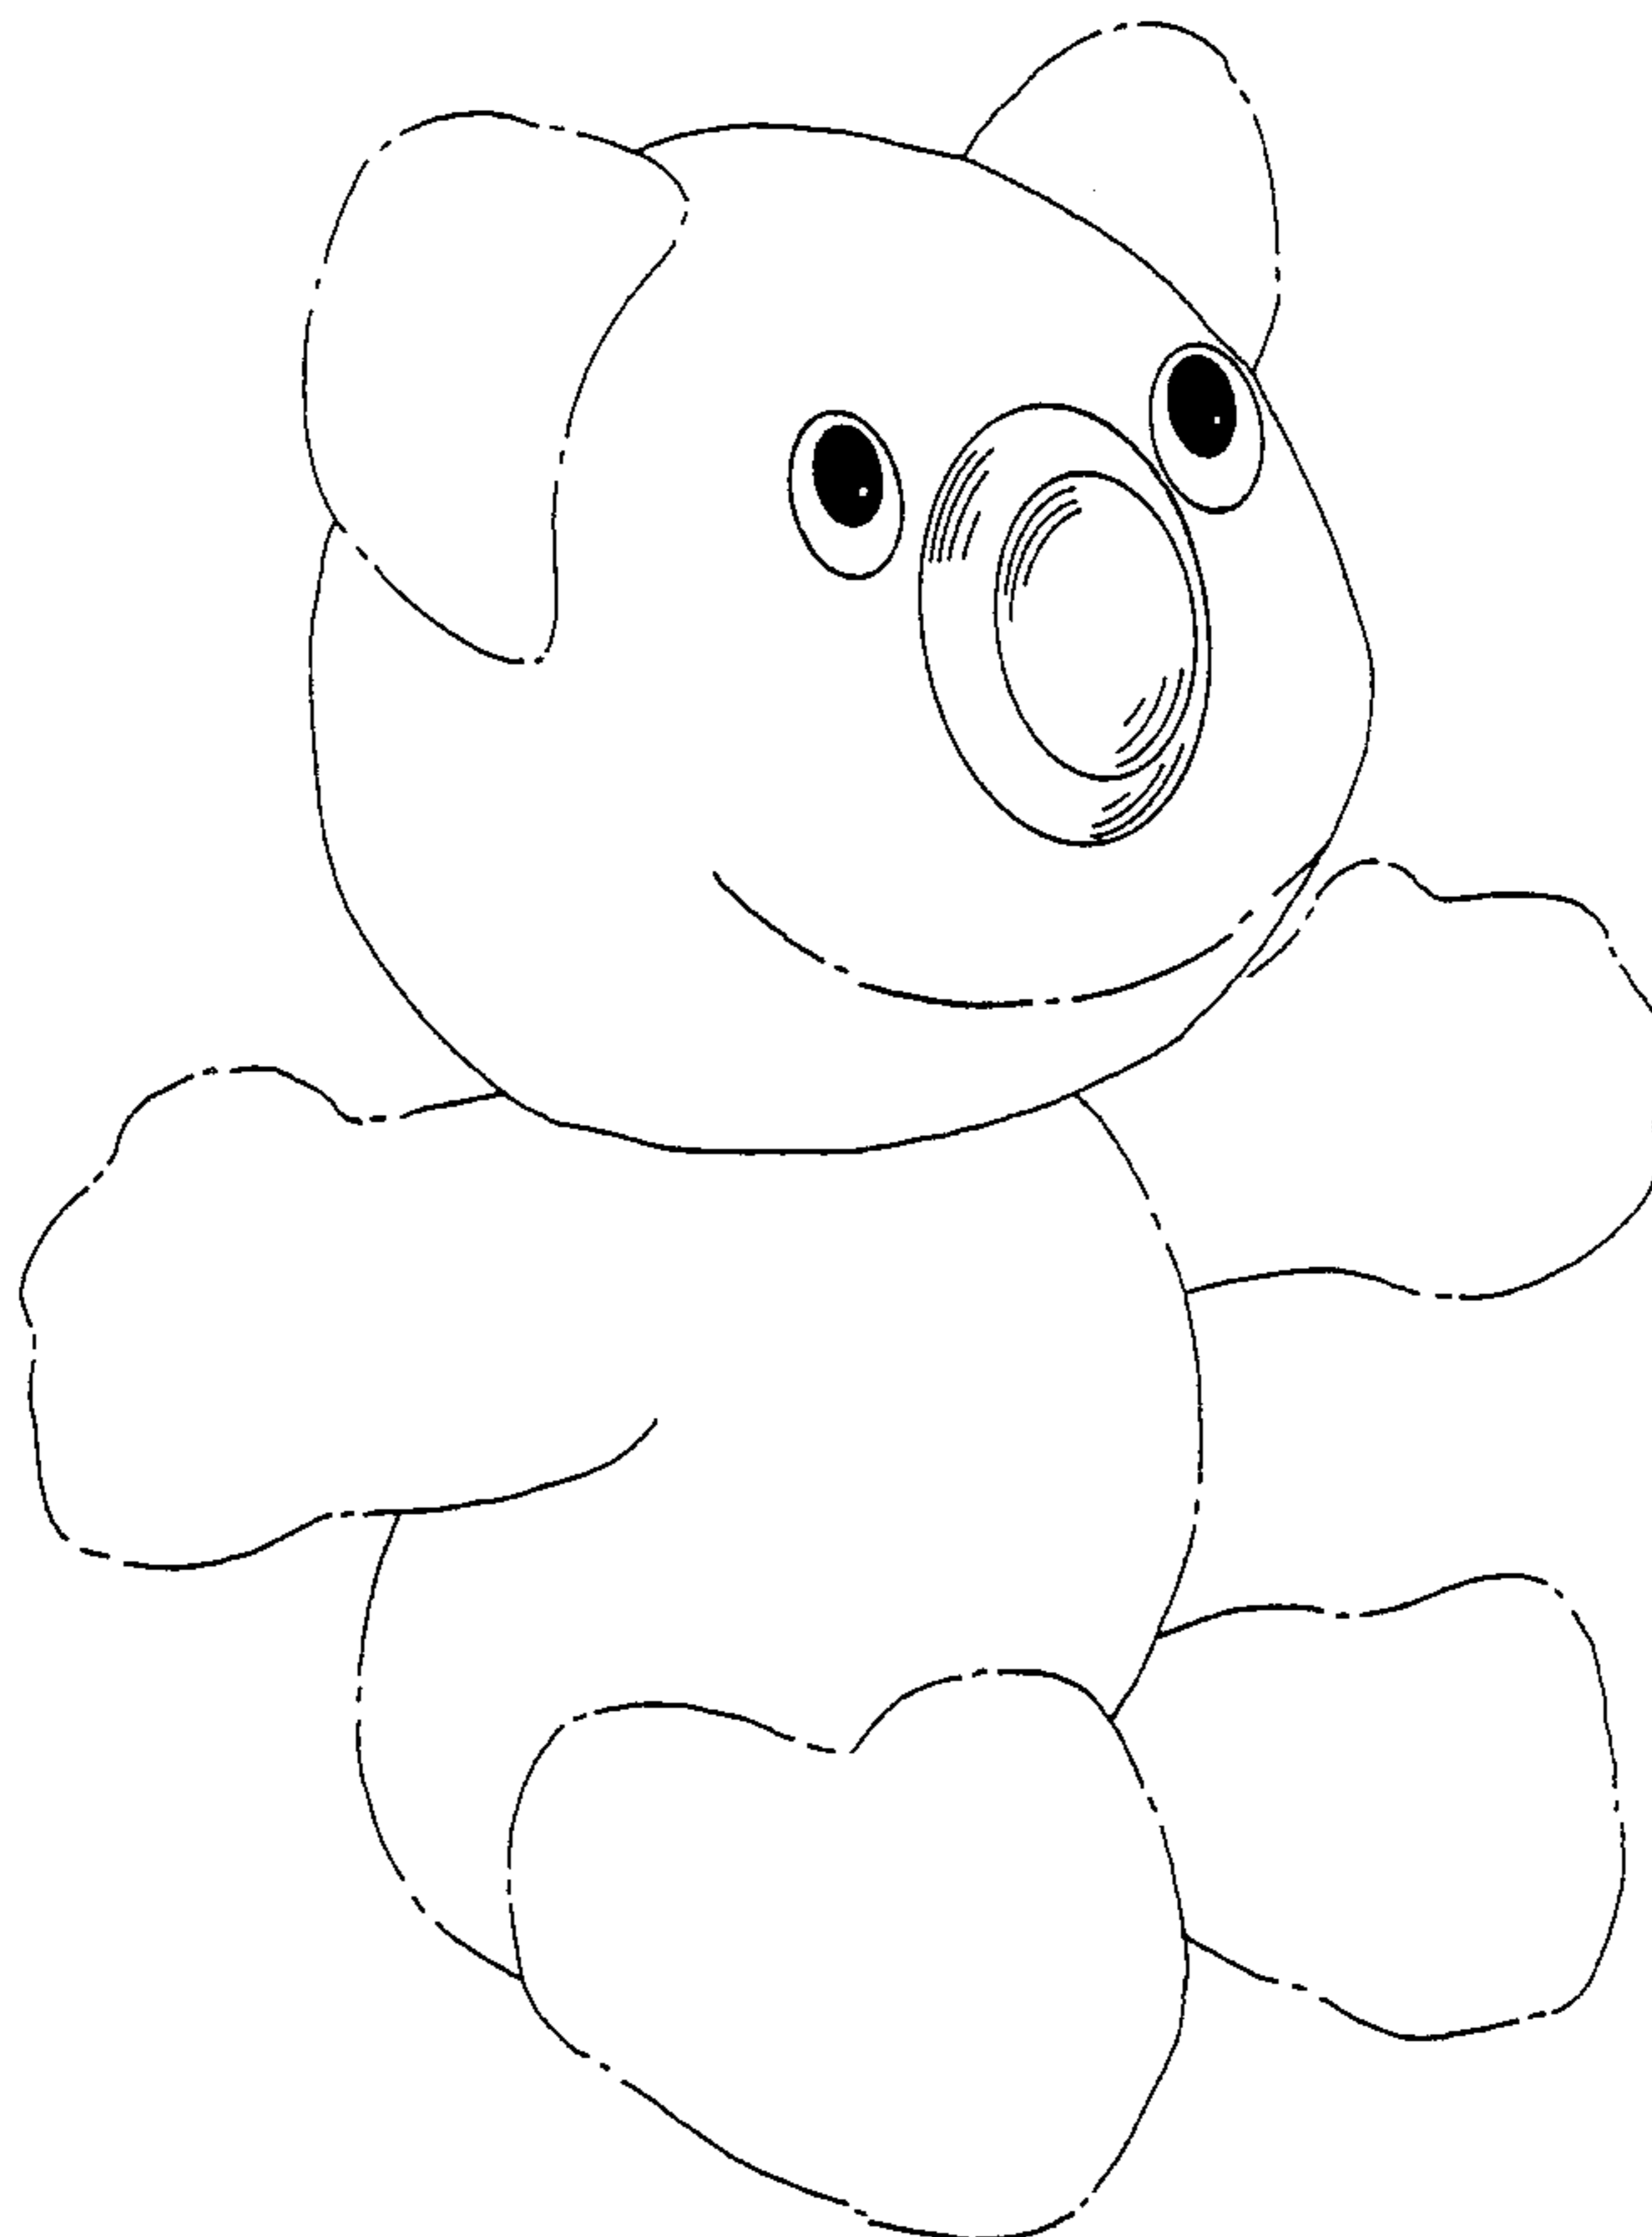

FIG. 3 is a top view of the three dimensional simulated animal head or similar article of FIG. 1;

FIG. 4 is a view looking generally in the direction of arrows 4—4 of FIG. 2;

FIG. 5 is a rear view of the three dimensional simulated animal head or similar article of FIG. 1; and

FIG. 6 is a perspective view of the three dimensional simulated animal head or similar article embodying our design.

A characteristic feature of the three dimensional simulated animal head or similar article according to our design is the inclusion of a relatively flattened shape that suggests a nose.
