**CLAIM**

The ornamental design for a combined spray wand tip portion and swivel-mounted nozzle, as shown and described.

**DESCRIPTION**

FIG. 1 is a right side elevational view of a combined spray wand tip portion and swivel-mounted nozzle showing my new design, the left side being a mirror image of that shown;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a fragmentary vertical cross-sectional view thereof, taken along line 4—4 of FIG. 1, with portions omitted for convenience of illustration;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a right side elevational view thereof, with the nozzle portion shown swiveled to an alternate position;

FIG. 8 is a right side elevational view thereof, with the

nozzle portion shown swiveled to another alternate position;

FIG. 9 is a right side elevational view thereof, with the nozzle portion shown swiveled to a further alternate position;

FIG. 10 is a right side elevational view of an alternate embodiment thereof, the left side being a mirror image of that shown;

FIG. 11 is a front elevational view of the embodiment of FIG. 10;

FIG. 12 is a rear elevational view of the embodiment of FIG. 10;

FIG. 13 is a fragmentary vertical cross-sectional view of the embodiment of FIG. 10, taken along line 13—13 of FIG. 10, with portions omitted for convenience of illustration;

FIG. 14 is a top plan view of the embodiment of FIG. 10;

FIG. 15 is a bottom plan view of the embodiment of FIG. 10;

FIG. 16 is a right side elevational view of the embodiment of FIG. 10, with the nozzle portion shown swiveled to an alternate position;

FIG. 17 is a right side elevational view of the embodiment of FIG. 10, with the nozzle portion shown swiveled to another alternate position; and

FIG. 18 is a right side elevational view of the embodiment of FIG. 10, with the nozzle portion shown swiveled to a further alternate position.

The ends of the wand portions are shown broken-away in FIGS. 7-9 and 16-18 for convenience of illustration.
