[57] CLAIM

The ornamental design for a trolling motor tilt position alarm, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a trolling motor tilt position alarm showing my new design, with the cords broken away in the center to indicate indeterminate length.

FIG. 2 is a rear elevational view thereof;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a top plan view thereof; and,

FIG. 6 is a bottom plan view thereof.
