[57] **CLAIM**

The ornamental design for an air sampling filter, as shown.

DESCRIPTION

FIG. 1 is a top front isometric view taken from one side of an air sampling filter showing my new design, with the filter element disposed in its holder;
 FIG. 2 is a bottom rear isometric view thereof taken from the other side, with the filter element disposed in its holder;
 FIG. 3 is an exploded top front isometric view thereof taken from one side, with the filter element removed from its holder;
 FIG. 4 is an exploded bottom rear isometric view thereof taken from the other side, with the filter element removed from its holder.
