[57] CLAIM

The ornamental design for a sliding bolt component of a tiltable window sash, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, and right side perspective view of a sliding bolt component of a tiltable window sash showing our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a rear elevational view thereof; and

FIG. 8 is a top, front, and left side elevational view of an alternate embodiment thereof, the only difference being that the alternative embodiment is a mirror image of that shown in FIG. 1.
