[57] **CLAIM**

The ornamental design for a support accessory, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view taken from the top, front and left side of a support accessory showing my new design, the embodiment being in the form of a robe hook or the like;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof, the right side elevational view being the mirror image thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a perspective view taken from the top, front and left side of a support accessory showing my new design, the second embodiment being in the form of a shelf bracket or the like;

FIG. 7 is a front elevational view thereof;

FIG. 8 is a left side elevational view thereof;

FIG. 9 is a right side elevational view thereof;

FIG. 10 is a top plan view thereof, the bottom plan view being the mirror image thereof;

FIG. 11 is a perspective view taken from the top, front and left side of a support accessory showing my new design, the third embodiment being in the form of a mirror bracket or the like;

FIG. 12 is a front elevational view thereof;

FIG. 13 is a left side elevational view thereof;

FIG. 14 is a right side elevational view thereof; and

FIG. 15 is a top plan view thereof, the bottom plan view being the mirror image thereof.

The fragmentary broken line representations of walls in FIGS. 1, 6 and 11 are for the purpose of illustration only and form no part of the claimed design.
