[57] **CLAIM**

The ornamental design for a latch or lock housing with foldable handle, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, front, and side perspective view of a latch or locking housing with foldable handle showing our new design;  
 FIG. 2 is a top, front, and side perspective view thereof, with the handle shown rotated to an alternative position;  
 FIG. 3 is a top, front, and side perspective view thereof, with the handle shown both rotated to an alternative position and extended; and  
 FIG. 4 is a top, rear, and side perspective view thereof.
