[57] CLAIM

The ornamental design for a combined door handle and deadbolt unit, as shown and described.

DESCRIPTION

FIG. 1 is a left side elevational view of a combined door handle and deadbolt unit embodying the new design,

the outline depiction of a door being for illustrative purposes only;

FIG. 2 is an inside front elevational view thereof;

FIG. 3 is a right side elevational view thereof, the outline depiction of a door being for illustrative purposes only;

FIG. 4 is an outside front elevational view thereof;

FIG. 5 is a top plan view thereof, the outline depiction of a door for illustrative purposes only;

FIG. 6 is a bottom plan view thereof, the outline depiction of a door being for illustrative purposes only;

FIG. 7 is an inside rear elevational view taken generally on the line 7—7 of FIG. 1, the outside rear elevational view being a mirror image thereof;

FIG. 8 is an inside front perspective view of a second embodiment of the design of FIG. 1, the only differences being the configuration of the handle and thumb turn;

FIG. 9 is a left side elevational view of a third embodiment of the design of FIG. 1, the outline depiction of a door being for illustrative purposes only;

FIG. 10 is an inside front elevational view of the embodiment of FIG. 9;

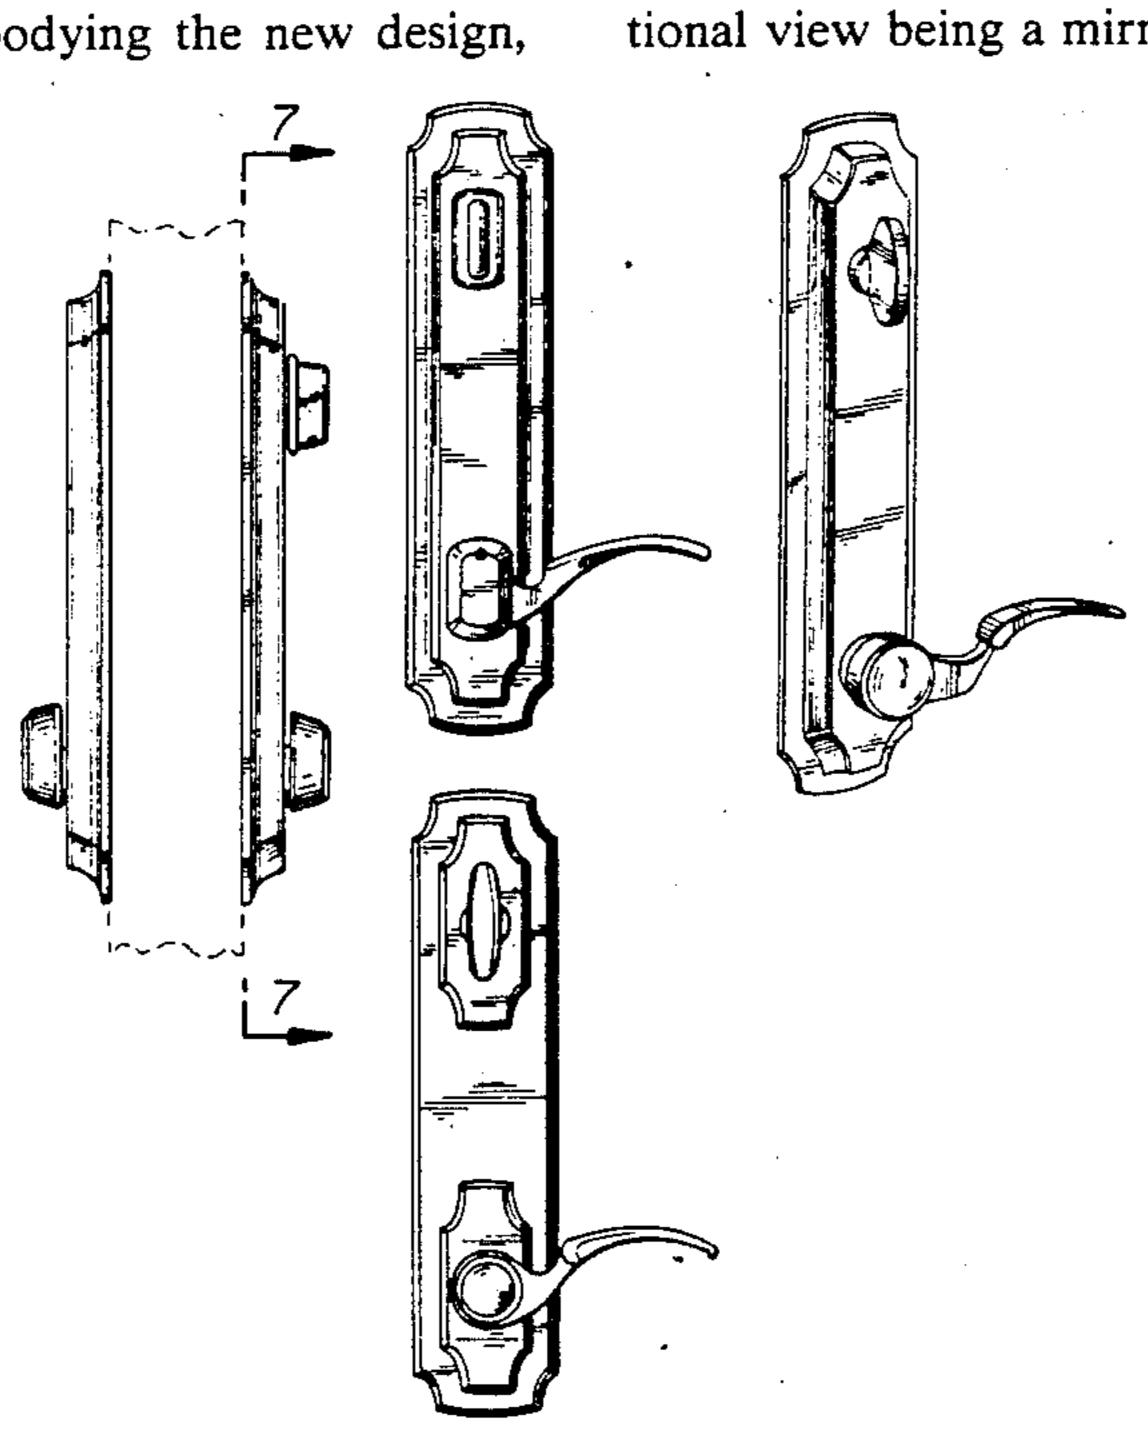

FIG. 11 is a right side elevational view of the embodiment of FIG. 9, the outline depiction of a door being for illustrative purposes only;

FIG. 12 is an outside front elevational view of the embodiment of FIG. 9;

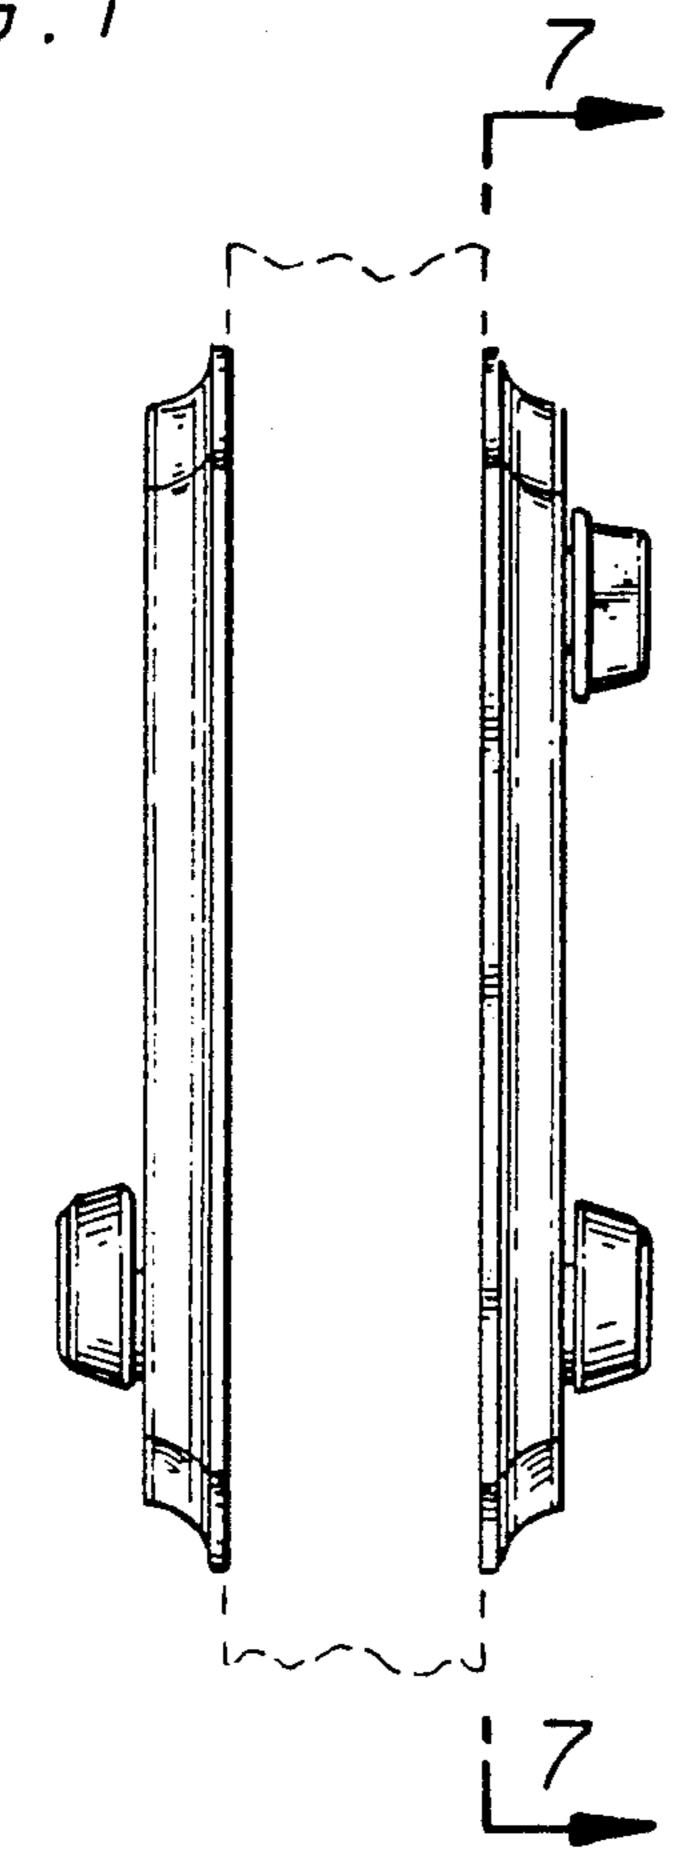

FIG. 13 is a top plan view of the embodiment of FIG. 9, the outline depiction of a door being for illustrative purposes only;

FIG. 14 is a bottom plan view of the embodiment of FIG. 9, the outline depiction of a door being for illustrative purposes only;

FIG. 15 is an inside rear elevational view taken generally on the line 15—15 of FIG. 9, the outside rear elevational view being a mirror image thereof.
