[57] CLAIM

The ornamental design for a window for an optical scanner, as shown and described.

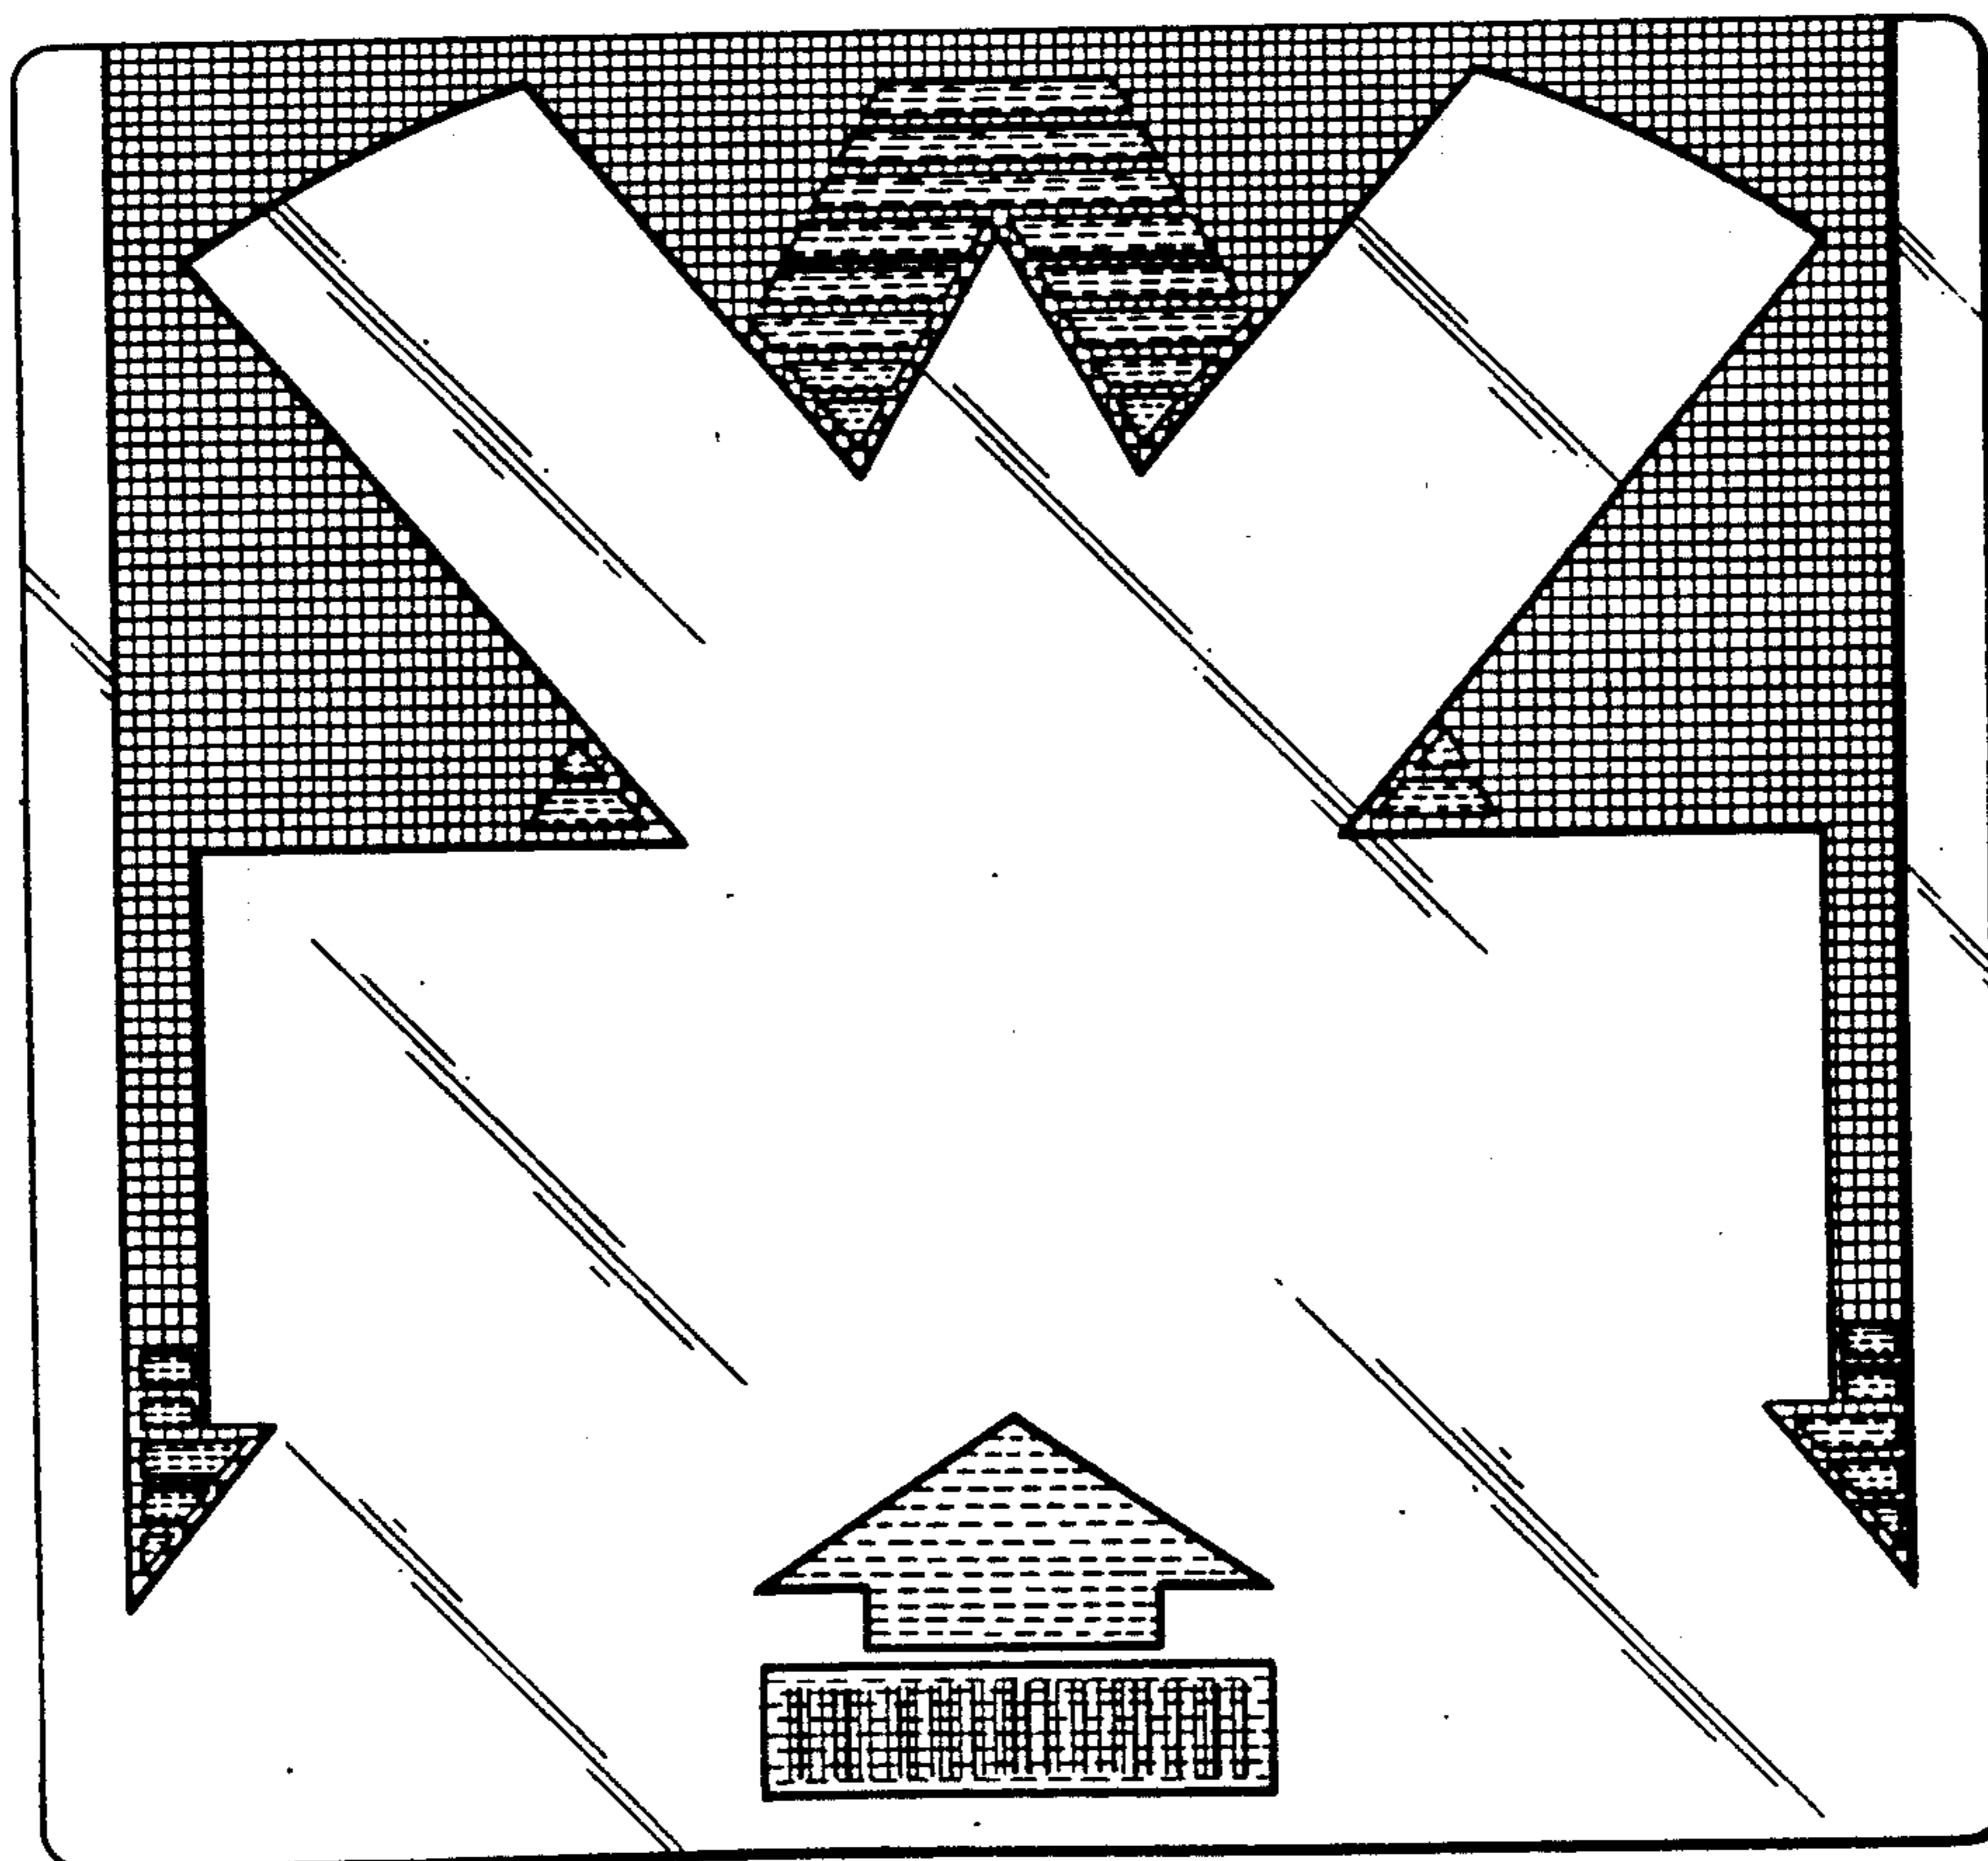

DESCRIPTION

FIG. 1 is a top plan view of a window for an optical scanner showing our new design;
 FIG. 2 is a side elevational view thereof, the opposite side elevational view being identical;
 FIG. 3 is a top plan view of a second embodiment of our design;
 FIG. 4 is a top plan view of a third embodiment of our design;
 The bottom plan view and the undisclosed front and rear elevational view of each embodiment is flat and plain. The undisclosed side view of the second and third embodiment is identical in appearance to that of the first embodiment.

The drawing is lined for color in FIGS. 1 and 3.
