[57] CLAIM

The ornamental design for spectacle frames, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of spectacle frames, showing our new design;
FIG. 2 is a bottom plan view thereof
FIG. 3 is a top plan view thereof
FIG. 4 is a left side elevational view thereof with the end portion of the temples turned outwardly, the right side elevational view being substantially a mirror image;
FIG. 5 is a left side elevational view thereof, with the end portion of the temples turned inwardly; and
FIG. 6 is a rear elevational view thereof;
FIG. 7 is a front elevational view of a modified embodiment of the design shown in FIGS. 1 through FIG. 6;
FIG. 8 is a bottom plan view of the modified embodiment shown in FIG. 7;
FIG. 9 is a top plan view of the modified embodiment shown in FIG. 7;
FIG. 10 is a left side elevational view of the modified embodiment shown in FIG. 7 with the end portion of the temples turned outwardly, the right side elevational view being substantially a mirror image;
FIG. 11 is a left side elevational view thereof, with the portion of the temples turned inwardly; and
FIG. 12 is a rear view thereof.
