[57] CLAIM

The ornamental design for a foldable instrument mat and carrier pocket combination, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a foldable instrument mat and carrier pocket combination, showing my new design;

FIG. 2 is a perspective view with the pocket in inoperative position;

FIG. 3 is a fragmentary perspective view;

FIG. 4 is a perspective view of the foldable instrument mat and carrier pocket combination in folded condition;

FIG. 5 is a front elevational view;

FIG. 6 is a rear elevational view;

FIG. 7 is a left side elevational view;

FIG. 8 is a right side elevational view;

FIG. 9 is a top plan view;

FIG. 10 is a bottom plan view; and

FIG. 11 is a perspective view.

FIGS. 3 and 4 have been drawn to an enlarged scale with respect to FIGS. 1 and 2 while FIGS. 3-11 have been drawn to an enlarged scale with respect to FIGS. 3 and 4.
