[57] CLAIM

The ornamental design for the chair, as shown and  
described.

DESCRIPTION

FIG. 1 is a front elevational view of a chair showing our  
new design;  
FIG. 2 is a side elevational view of the chair of the  
present invention, the opposite side being the same in  
appearance except for the omission of the adjusting  
knob;  
FIG. 3 is a rear elevational view of the chair of the  
present invention;  
FIG. 4 is a bottom plan view of the chair of the present  
invention;  
FIG. 5 is a top plan view of the chair of the present  
invention;  
FIG. 6 is a front elevational view of an alternate design  
of the chair of the present invention;  
FIG. 7 is a side elevational view of the alternate design  
of the chair of the present invention, the opposite side  
being the same in appearance except for the omission of  
the adjusting knob;  
FIG. 8 is a rear elevational view of the alternate design  
of the chair of the present invention;  
FIG. 9 is a bottom plan view of the alternate design of  
the chair of the present invention; and  
FIG. 10 is a top plan view of the alternate design of the  
chair of the present invention.
