[57] CLAIM

The ornamental design for an X-ray line finder or similar article, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of an X-ray line finder or similar article, showing my new design, the bottom plan view being substantially a mirror image;

FIG. 2 is an end elevational view thereof;

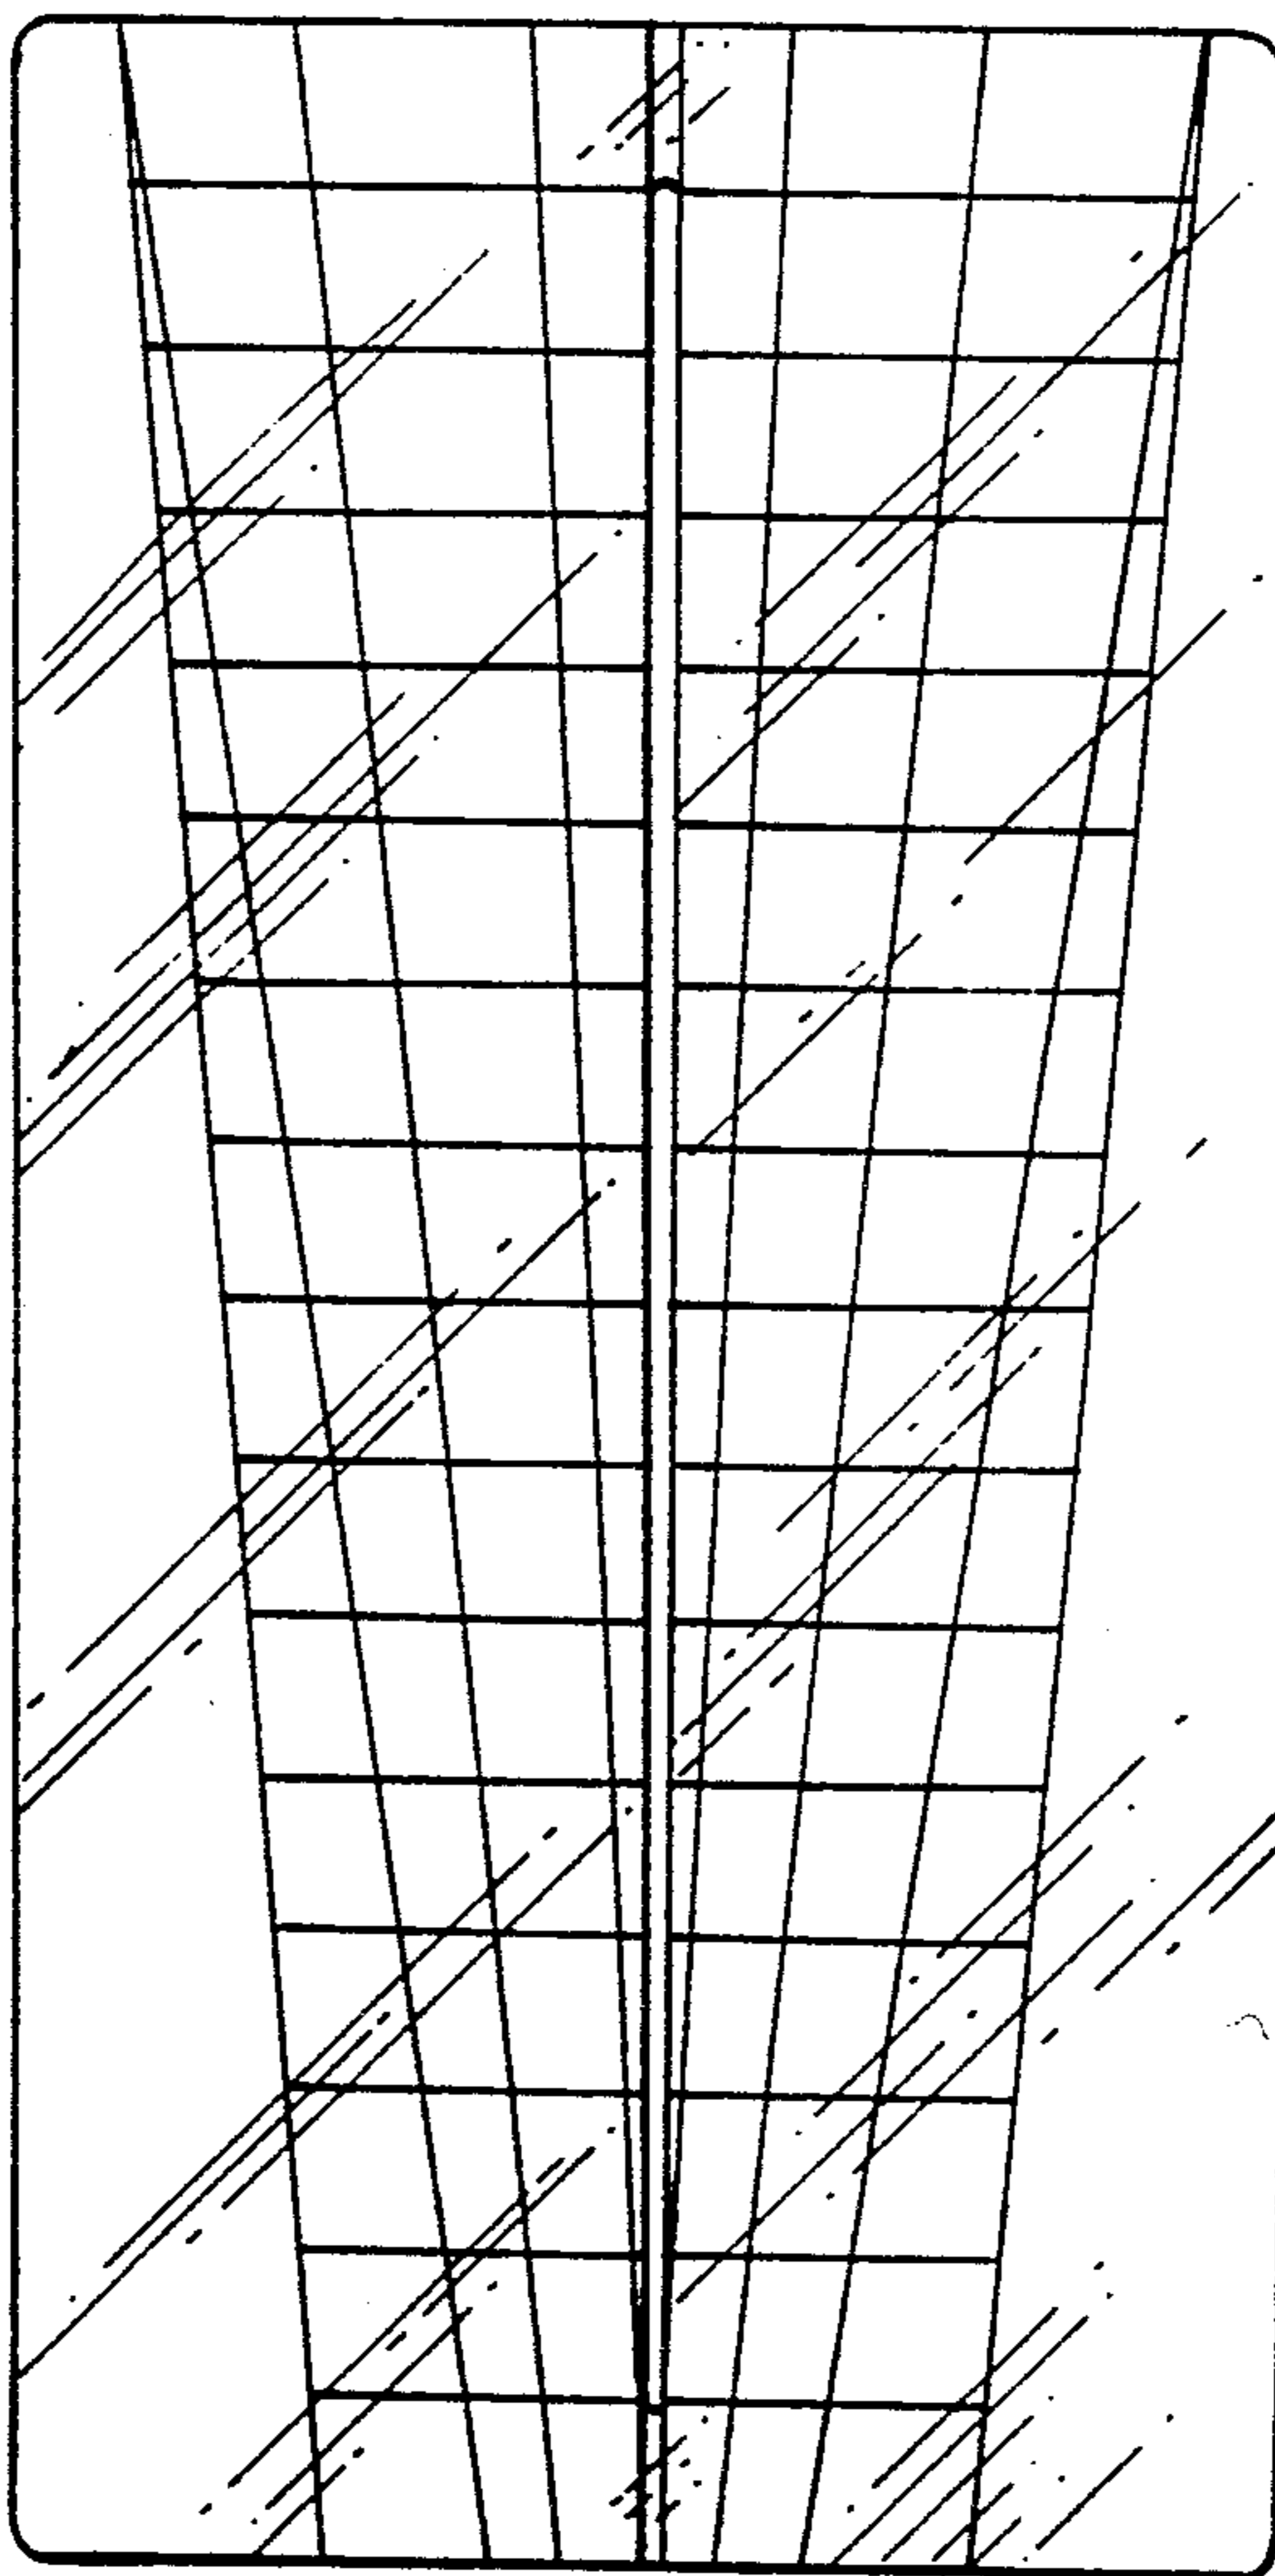

FIG. 3 is an end elevational view thereof, opposite that shown in FIG. 2;

FIG. 4 is a side elevational view thereof, the opposite side being a mirror image thereof;

FIG. 5 is an end elevational view of an alternate embodiment of the x-ray line finder or similar article, with the only difference being in the raised elements on the article and the top and bottom plan views being identical to that shown in FIG. 1;

FIG. 6 is an enlarged end elevational view thereof, the opposite end elevational view being a mirror image; and

FIG. 7 is a side elevational view thereof, the opposite side elevational view being a mirror image.

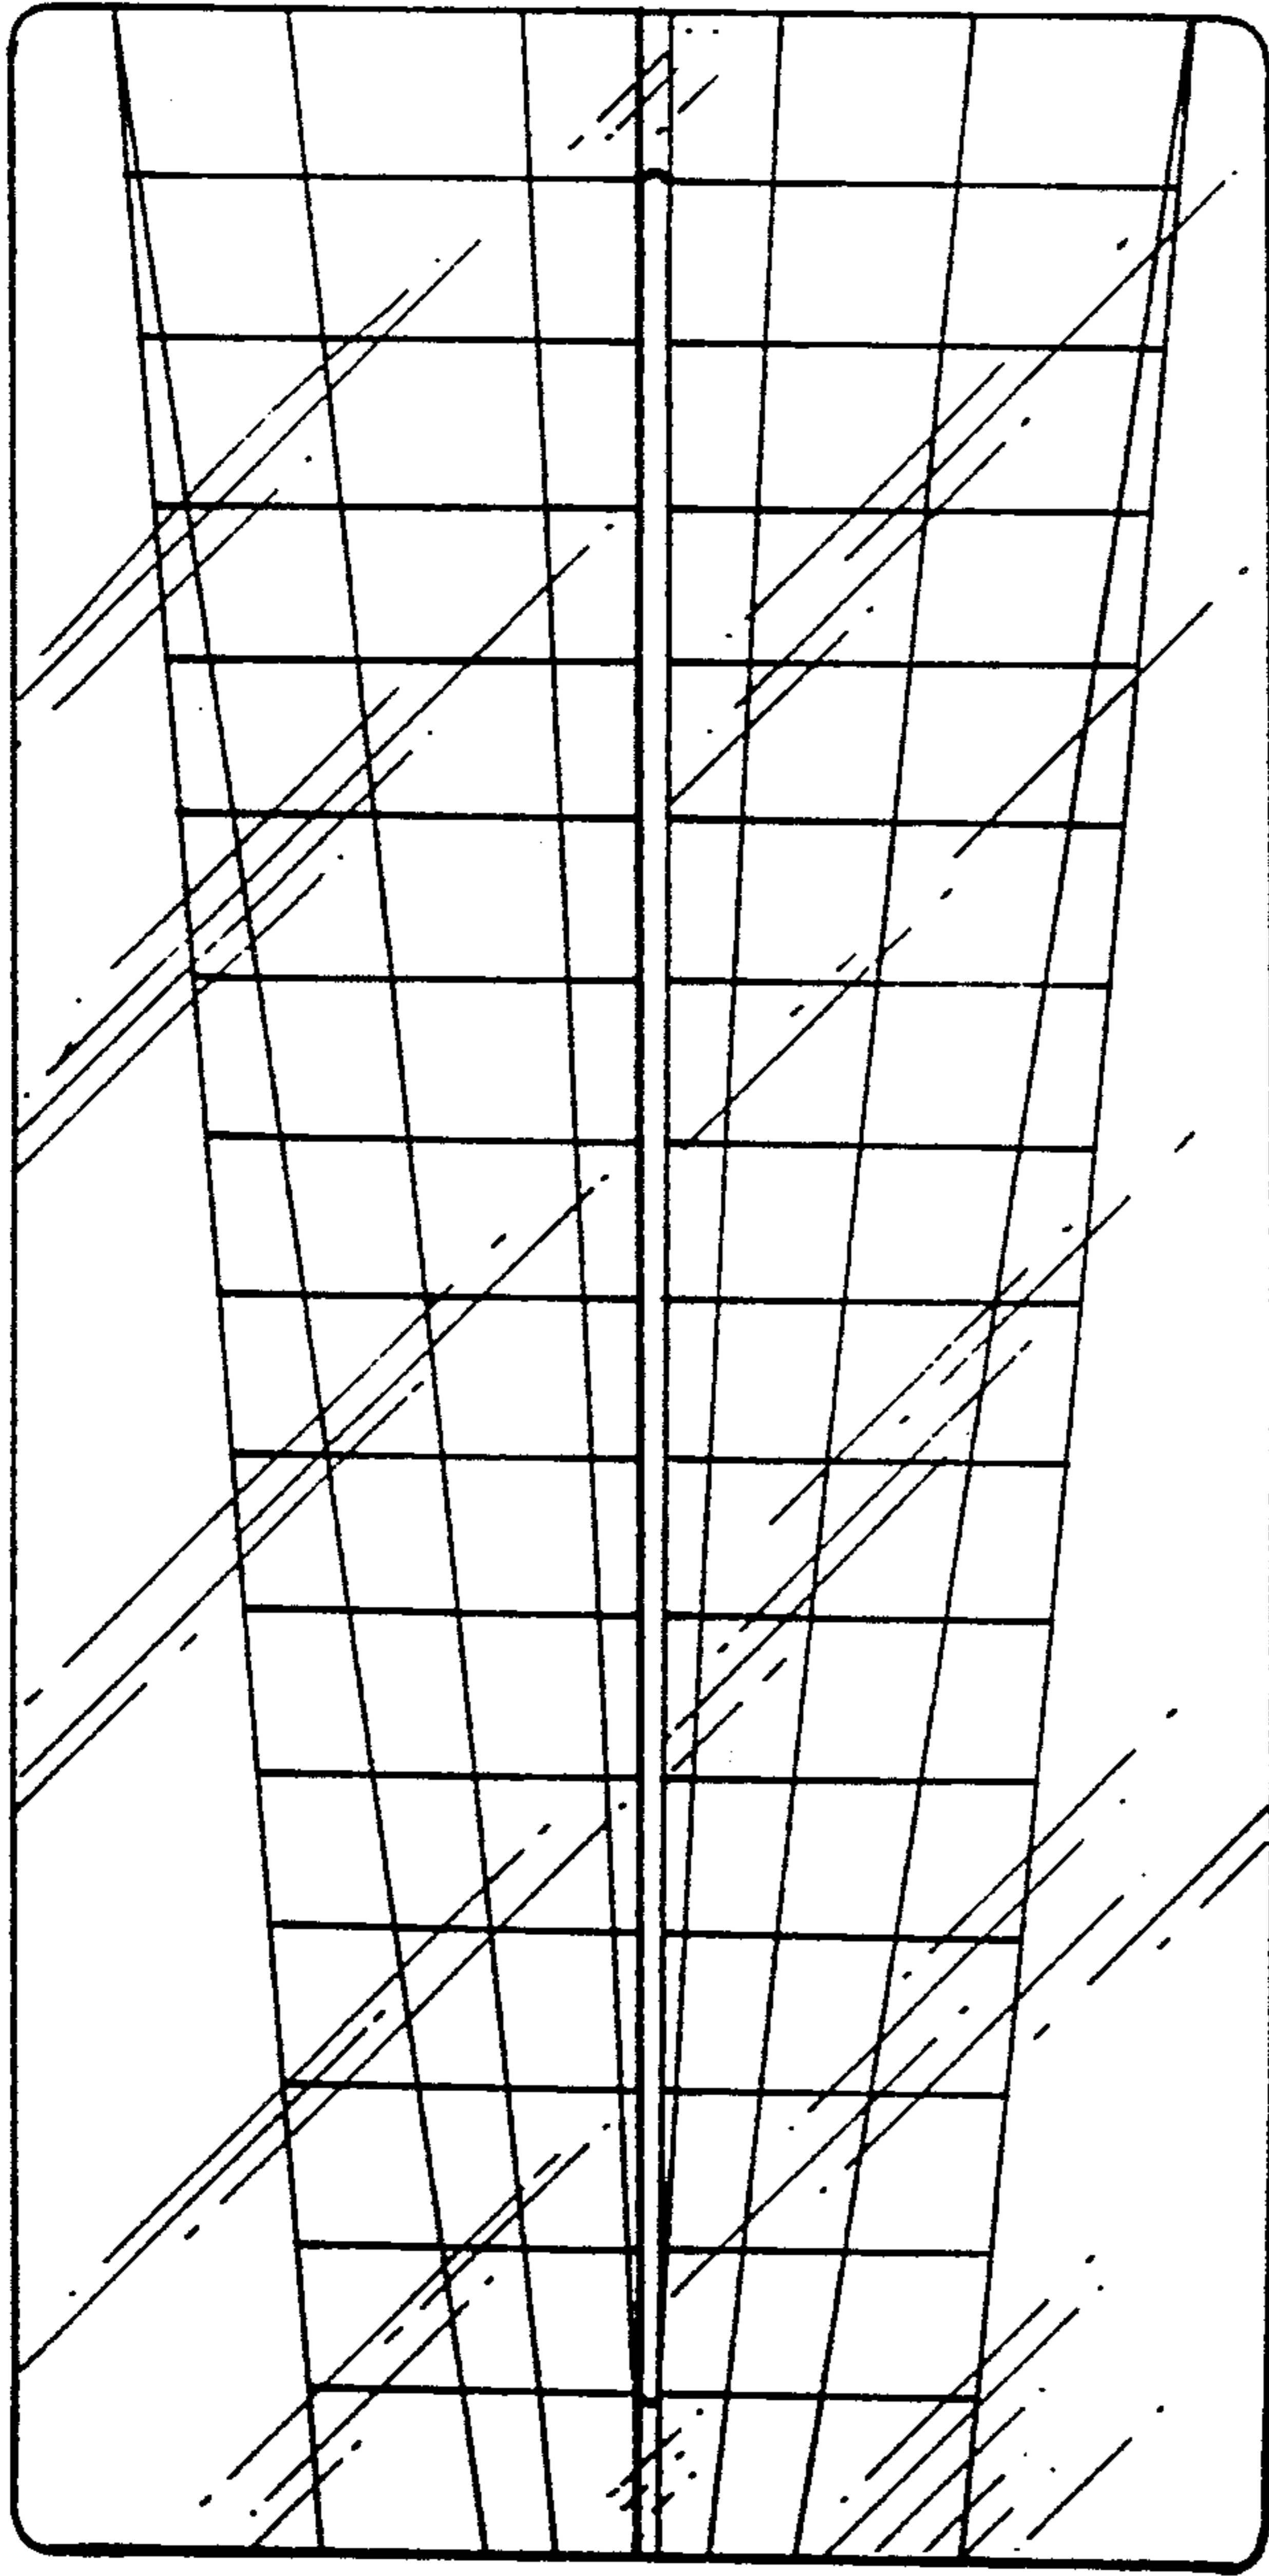

FIG. 1

FIG. 4

FIG. 2
