[57] **CLAIM**

The ornamental design for a bib for a nursing mother, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a bib for a nursing mother showing my new design in use, the broken lines partially showing a female form being for illustrative purposes only and forming no part of the claimed design;

FIG. 2 is a right side elevational view thereof, the left side being a mirror image except for the overlapping neck strip;

FIG. 3 is a front elevational view thereof shown flat;

FIG. 4 is a rear elevational view of FIG. 2; and

FIG. 5 is a right side elevational view of FIG. 3, the left side being a mirror image.

The broken lines showing a mother in FIG. 1 is for illustrative purposes only and forms no part of the claimed design. The broken lines showing a mother is used to indicate then worn position of the breast feeding infant cover.

The broken lines shown along the perimeter and neck line of the design are understood to represent conventional stitching.
