[57] **CLAIM**

The ornamental design for a medical syringe for administering subcutaneous injections, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a medical syringe for administering subcutaneous injections, showing our new design, the rear elevational view being identical thereto;

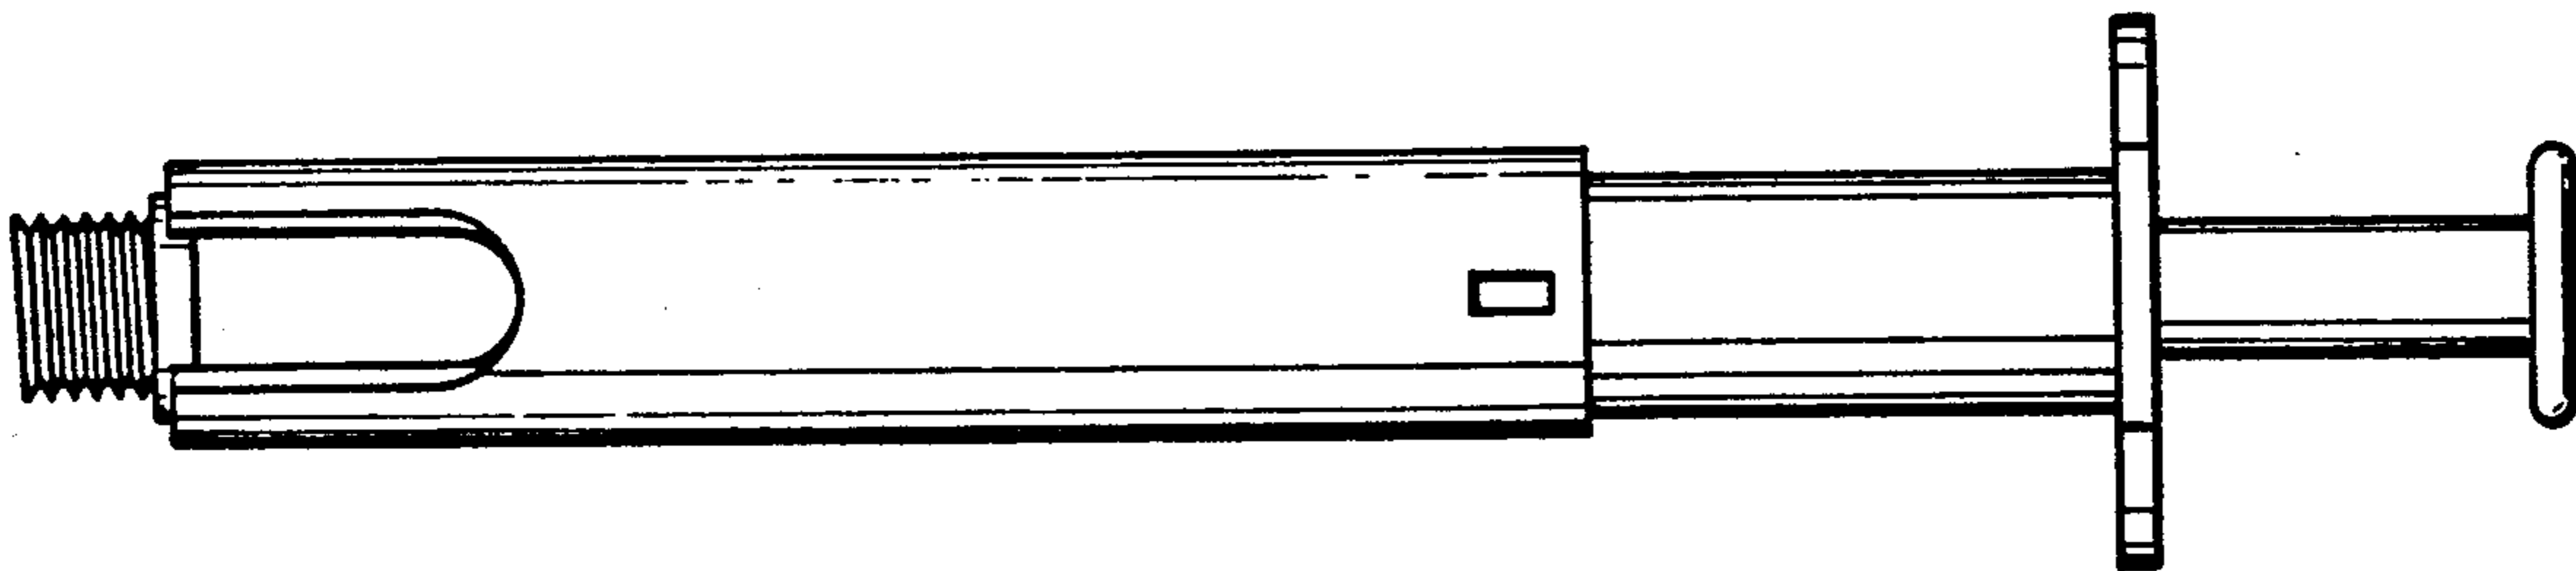

FIG. 2 is a right side elevational view of FIG. 1, the left side elevational being a mirror image;

FIG. 3 is a front elevational view of FIG. 1 in an alternate position, the rear elevational view being a mirror image;

FIG. 4 is a side elevational view of FIG. 1 in the position of FIG. 3, as seen from the right of FIG. 3, the left side elevational view being a mirror image;

FIG. 5 is a bottom plan view of FIG. 1; and

FIG. 6 is a top plan view of FIG. 1.
