[57] **CLAIM**

The ornamental design for a cabinet for electronic processing equipment and the like, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, side perspective view of a cabinet for electronic processing equipment and the like showing my new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a top, rear, side perspective view thereof, the side shown is opposite that shown in FIG. 1; and

FIG. 4 is an enlarged side elevational view thereof, the front, rear, and opposite side being identical.

The characteristic feature of my new design resides in the appearance of the contrasting colours on the cabinet wherein the entire top surface of the cabinet above the central recess is gloss black, the surfaces of the central recess are red and the entire bottom surface below the central recess is dull black.
