### [57] CLAIM

The ornamental design for a patient transporter, as shown and described.

### DESCRIPTION

FIG. 1 is a front elevational view of a patient transporter, showing our new design;  
 FIG. 2 is a side elevational view thereof, the opposite side being identical thereto;  
 FIG. 3 is an end elevational view thereof, the opposite end being identical thereto;  
 FIG. 4 is a side elevational view thereof in folded condition;  
 FIG. 5 is a perspective view thereof in folded condition;  
 FIG. 6 is a front elevational view of an alternate embodiment of the patient transporter, with the only difference residing in the length of the article and the undisclosed side and end views being identical to that shown in FIGS. 2-3;  
 FIG. 7 is a rear elevational view of the patient transporter shown in FIG. 1; and  
 FIG. 8 is a rear elevational view of the alternate embodiment of the patient transporter shown in FIG. 6.
