[57] **CLAIM**

The ornamental design for a subscriber network interface enclosure, as shown and described.

DESCRIPTION

FIG. 1 is a front and lower right perspective view of a subscriber network interface enclosure showing my new design in a partially open position;

FIG. 2 is a front elevational view of a subscriber network interface enclosure in the closed position shown on a slightly enlarged scale;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a rear elevational view thereof;

FIG. 8 is a front elevational view of a subscriber network interface enclosure showing my new design with the fully open position. The broken line showing of the telephone terminals and individual subscriber line modules including jacks and plugs is shown for the purpose of illustrating environmental elements only and forms no part of the claimed design; and

FIG. 9 is a front and upper left perspective view of a subscriber network interface enclosure showing my new design in the closed position.
