### [57] CLAIM

The ornamental design for a combined portable automated teller machine and foldable checkbook, as shown and described.

### DESCRIPTION

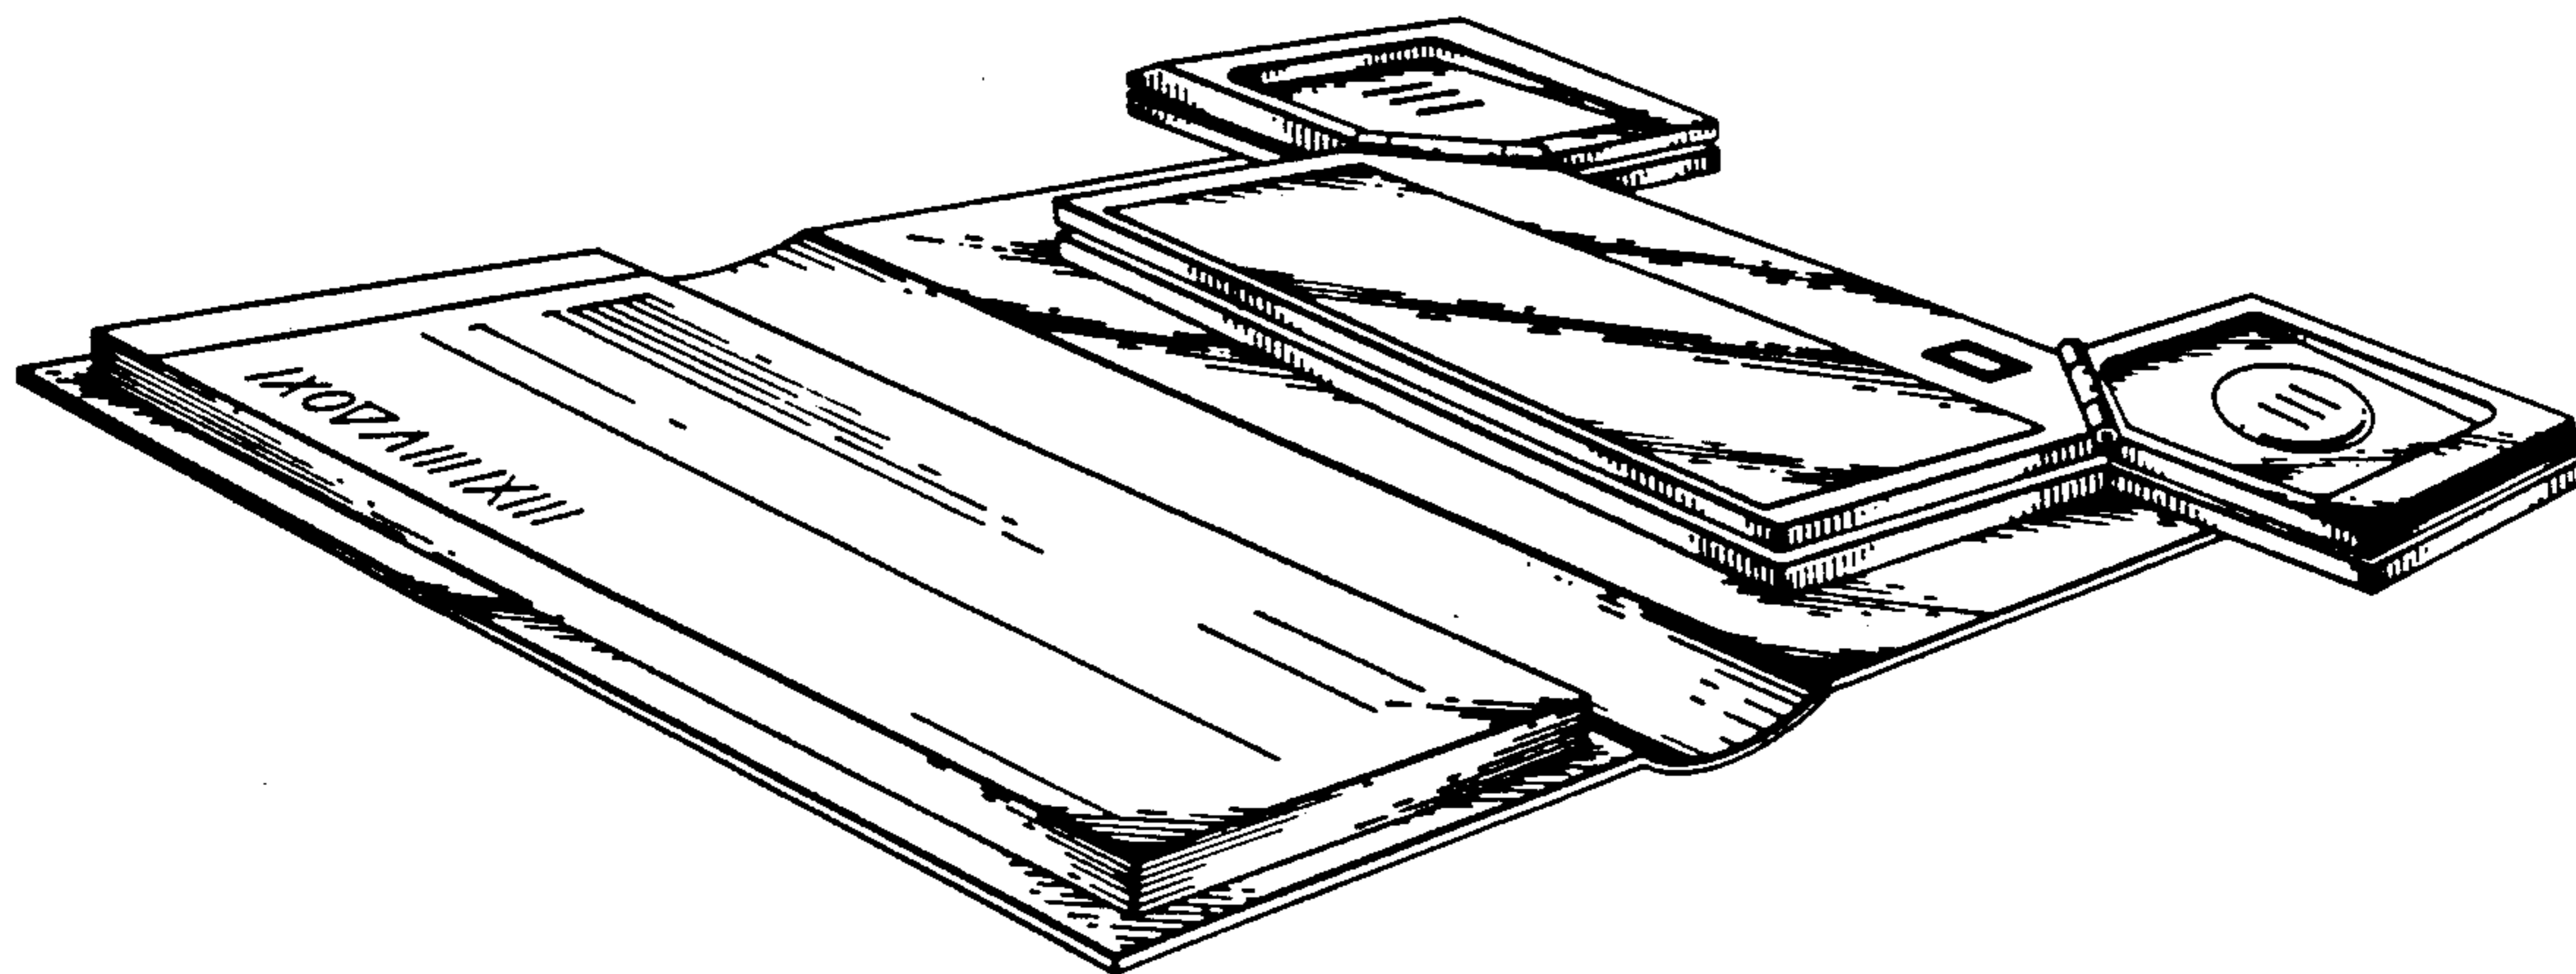

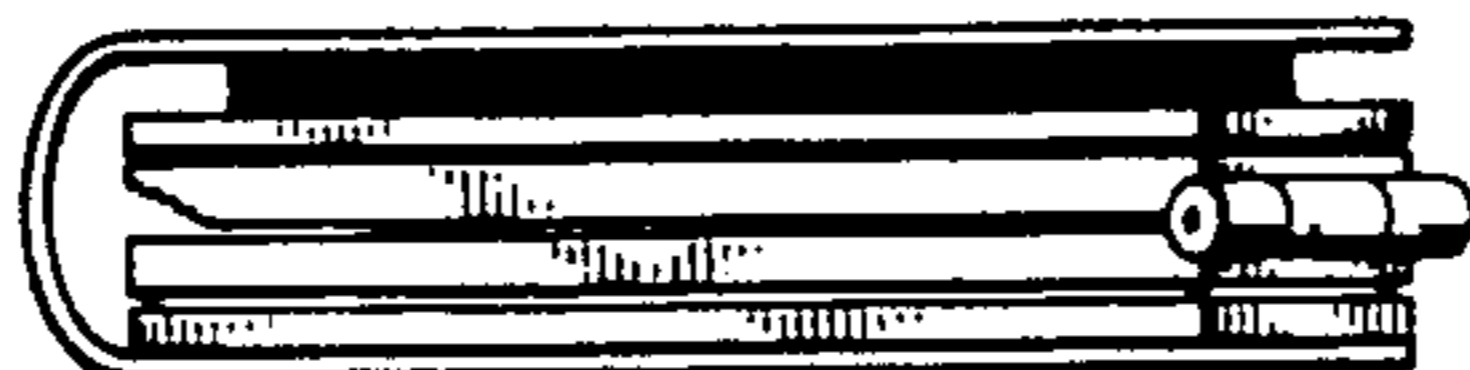

FIG. 1 is a side elevational view of a combined portable automated teller machine and foldable checkbook showing my new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a perspective view thereof with the checkbook being shown in an unfolded condition; and

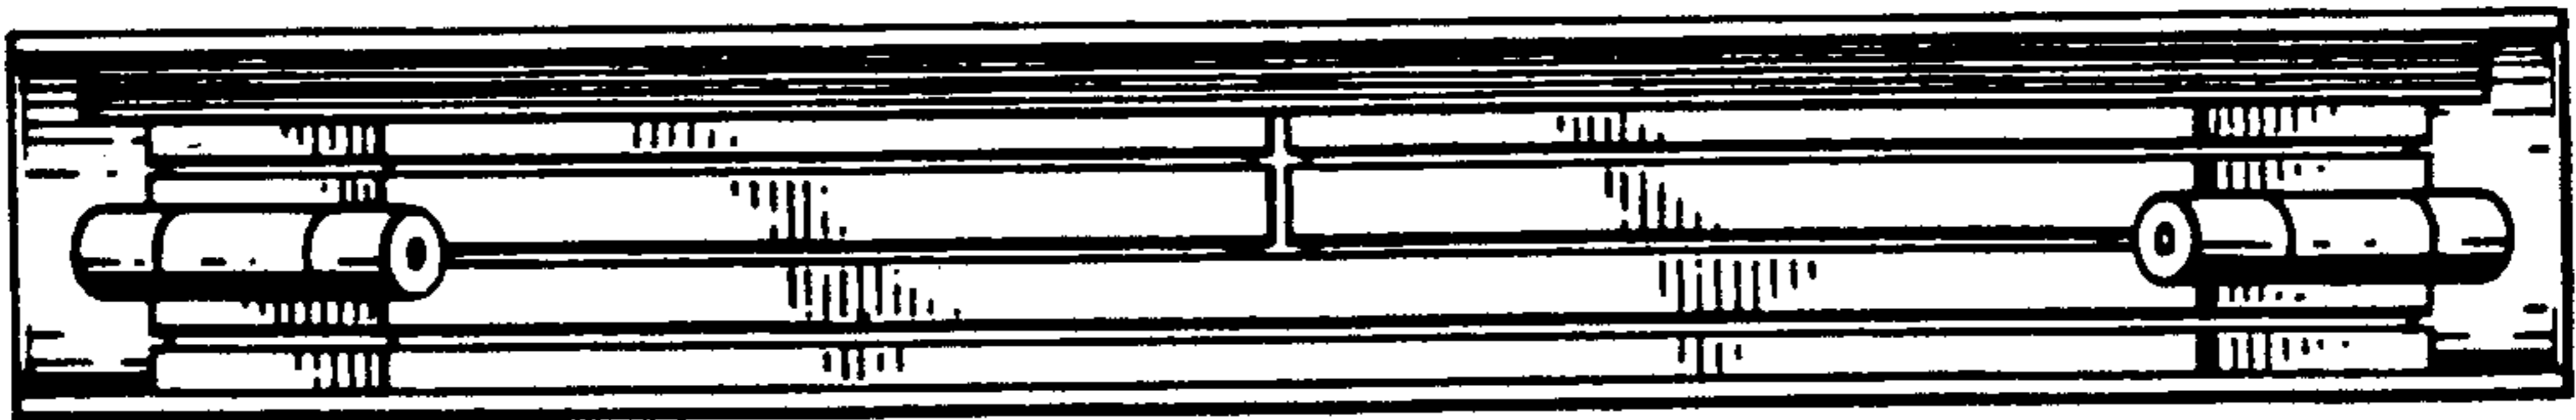

FIG. 4 is a perspective view thereof similar to that shown in FIG. 1 with both the checkbook and the portable automated teller machine being shown in an unfolded condition.

The teller machine and checkbook are shown in the folded condition in FIGS. 1 and 2. The undisclosed views of the top, side and bottom are substantially flat and unornamented.
