[57] CLAIM

The ornamental design for a latch or lock housing with push button operator, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, and left side perspective view of a latch or lock housing with push button operator showing our new design, the rear and right side being identical in appearance to the front and rear side;

FIG. 2 is a vertical cross-sectional view thereof, taken along line 2—2 of FIG. 1;

FIG. 3 is a top, front, and left side perspective view thereof, showing the push button depressed;

FIG. 4 is a top, front, and left side perspective view of an alternative embodiment thereof, the rear and right side being identical in appearance to the front and left side;

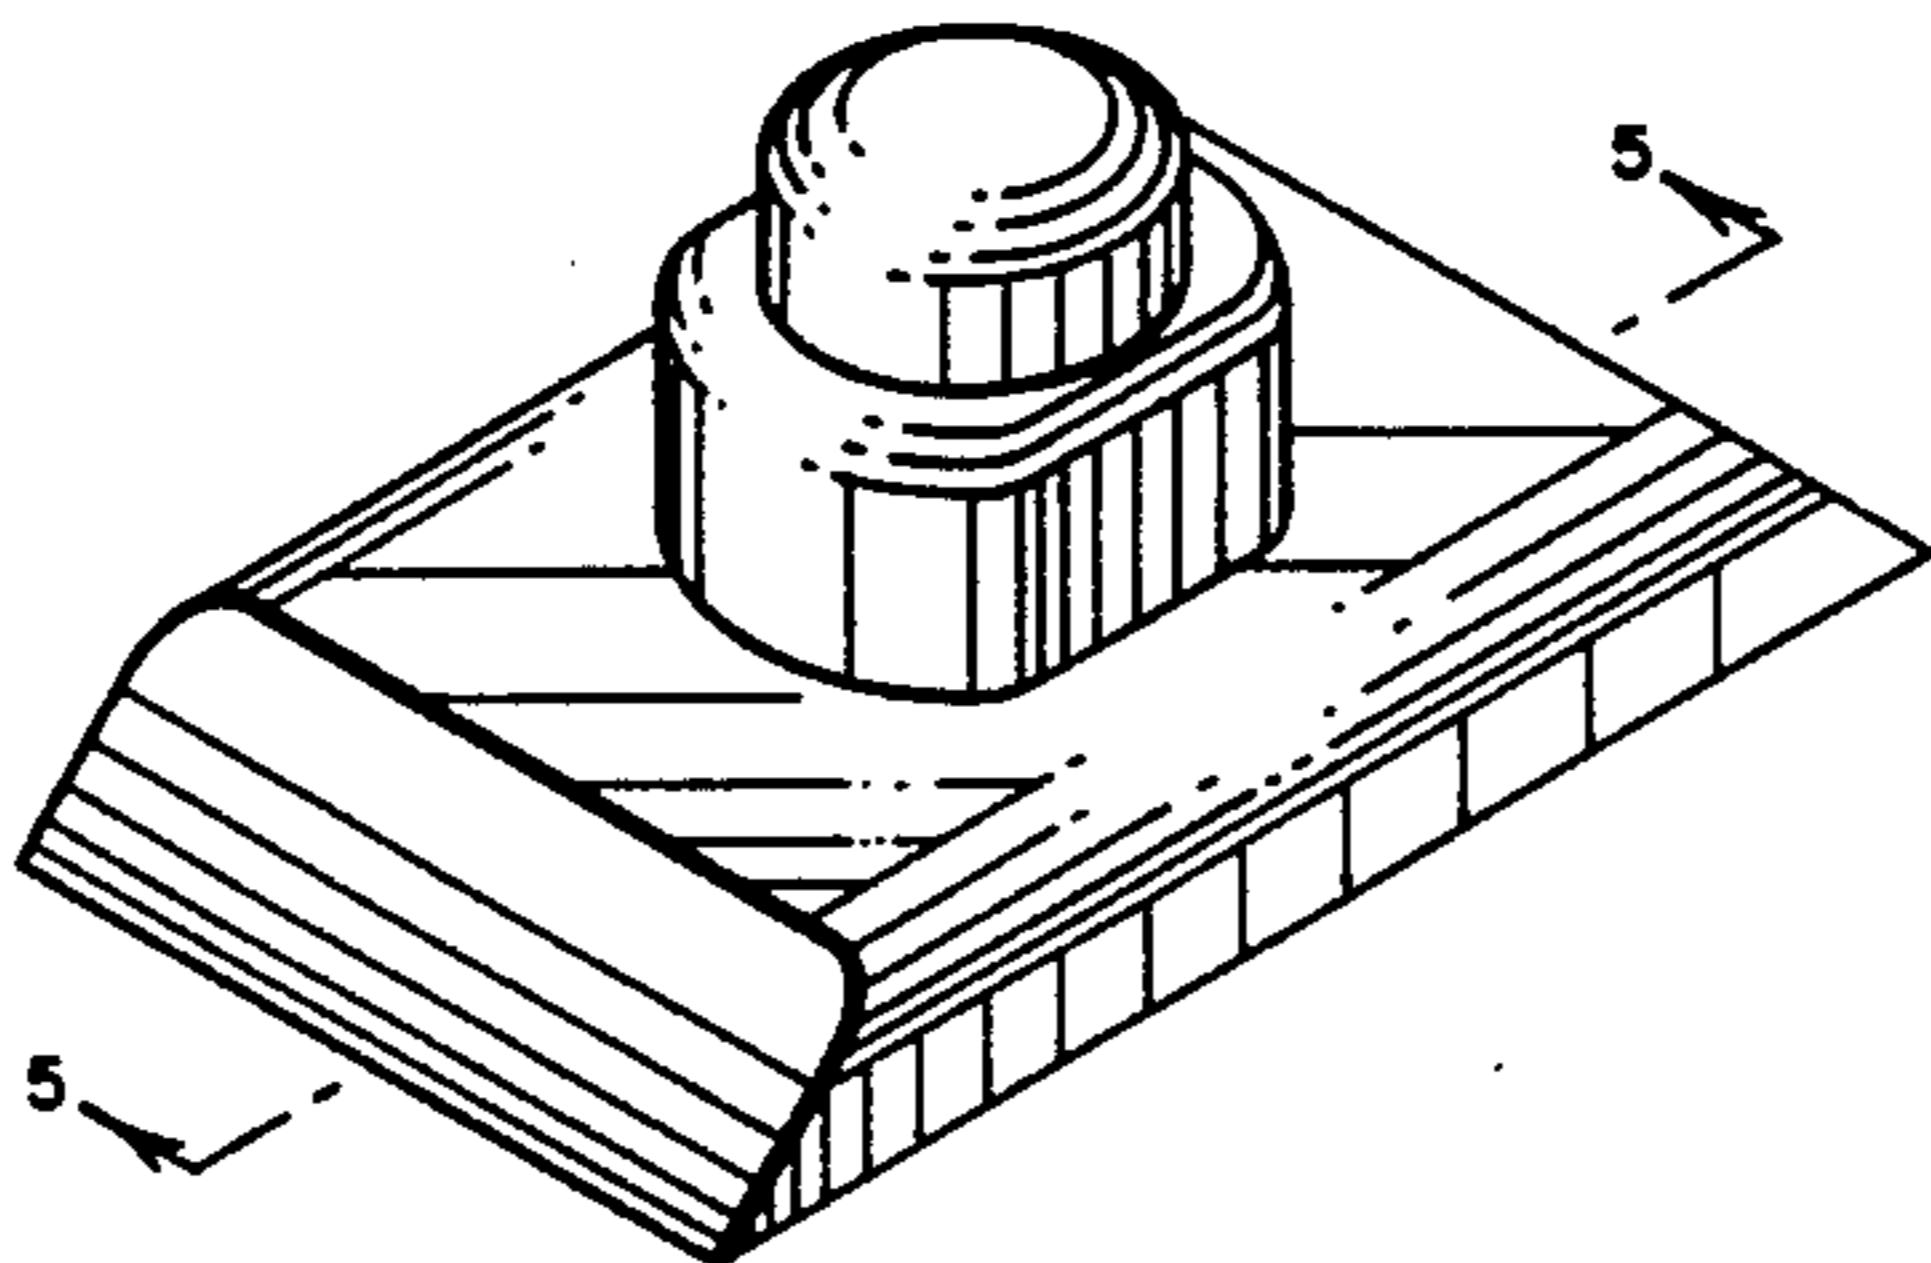

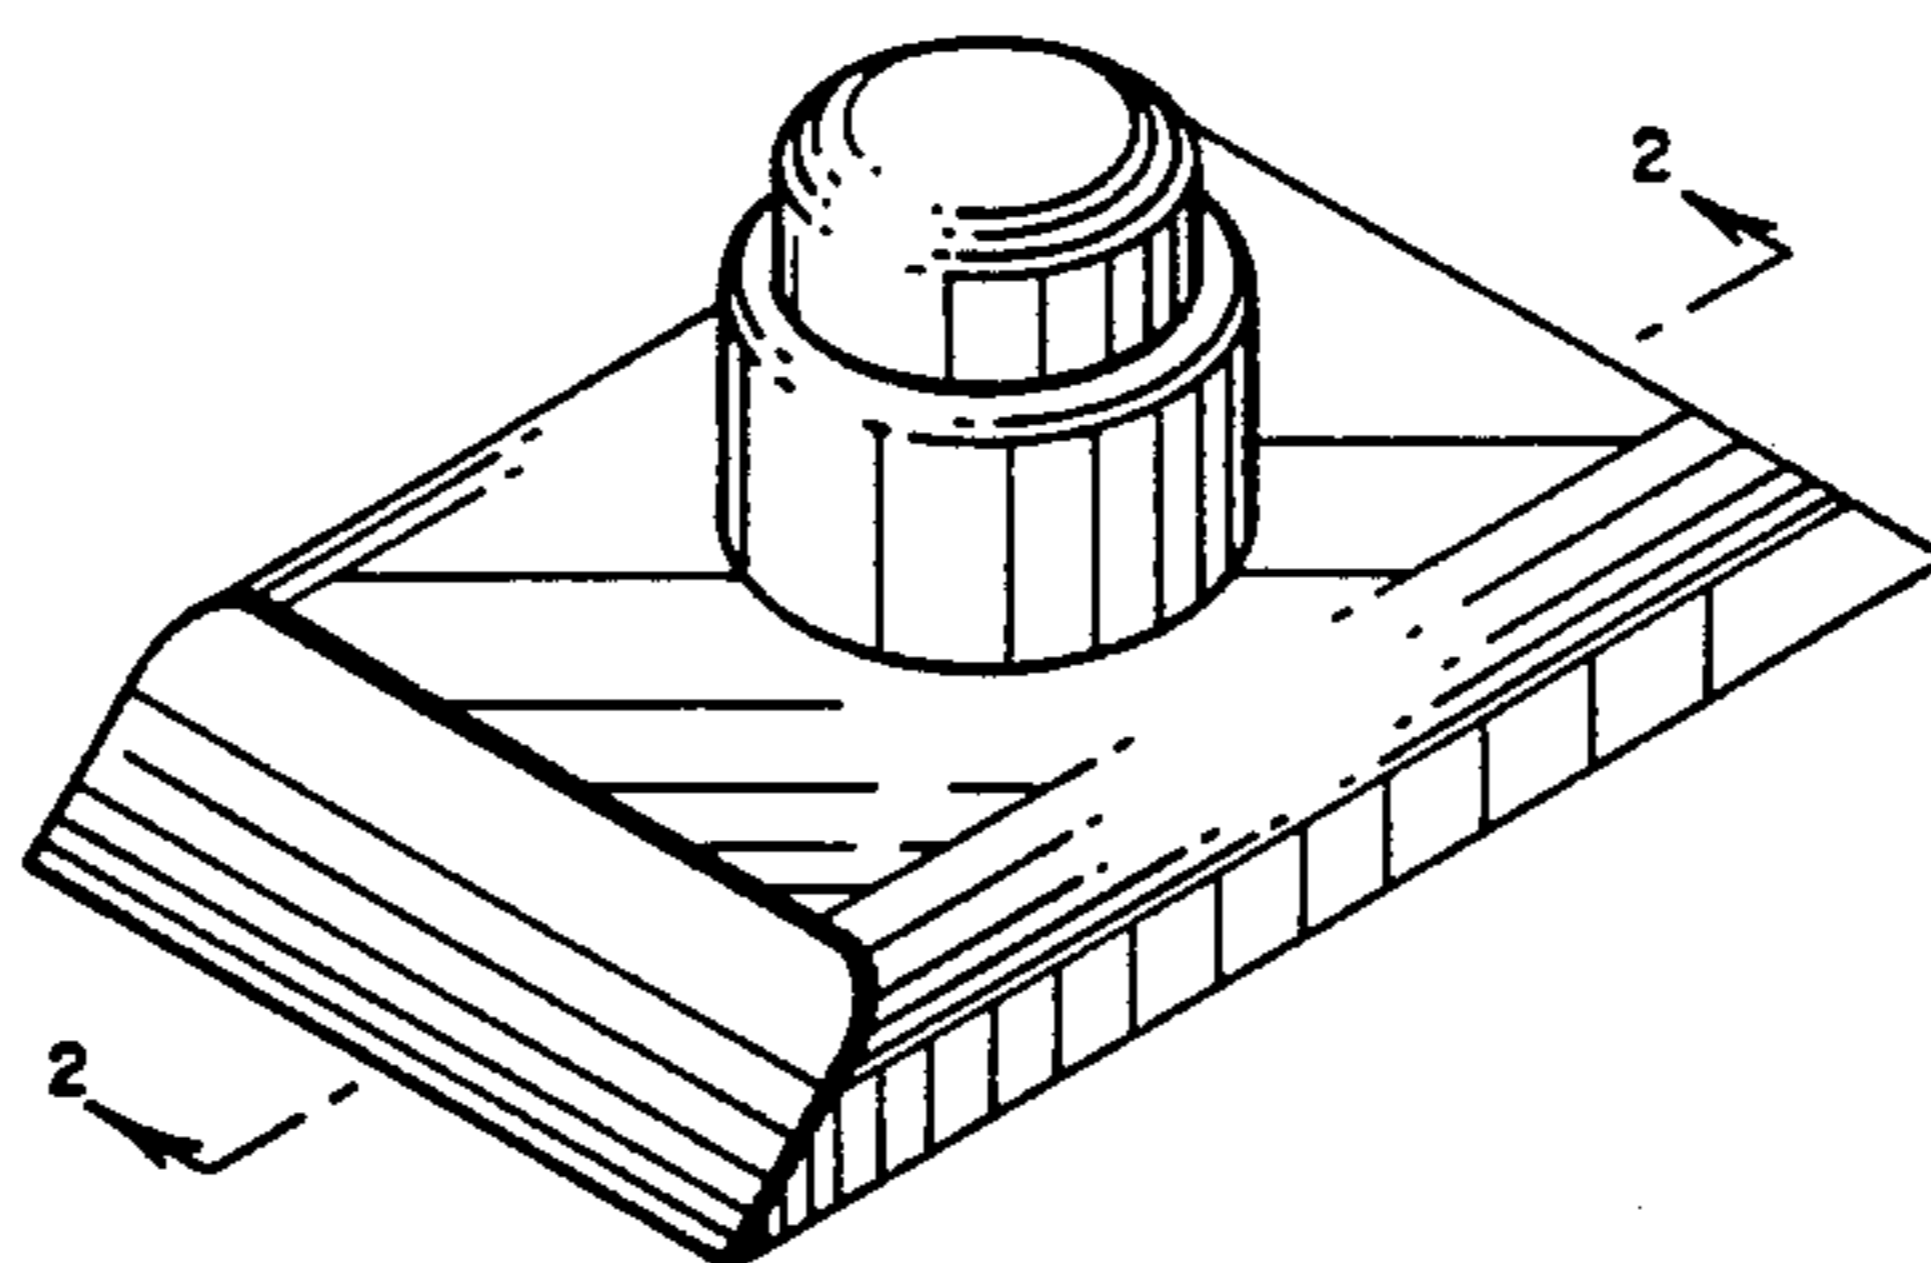

FIG. 5 is a vertical cross-sectional view of the alternate embodiment thereof, taken along line 5—5 of FIG. 4; and

FIG. 6 is a top, front, and left side perspective view of the alternative embodiment thereof, showing the push button depressed.
