[57] CLAIM

The ornamental design for a telephone station unit, as shown and described.

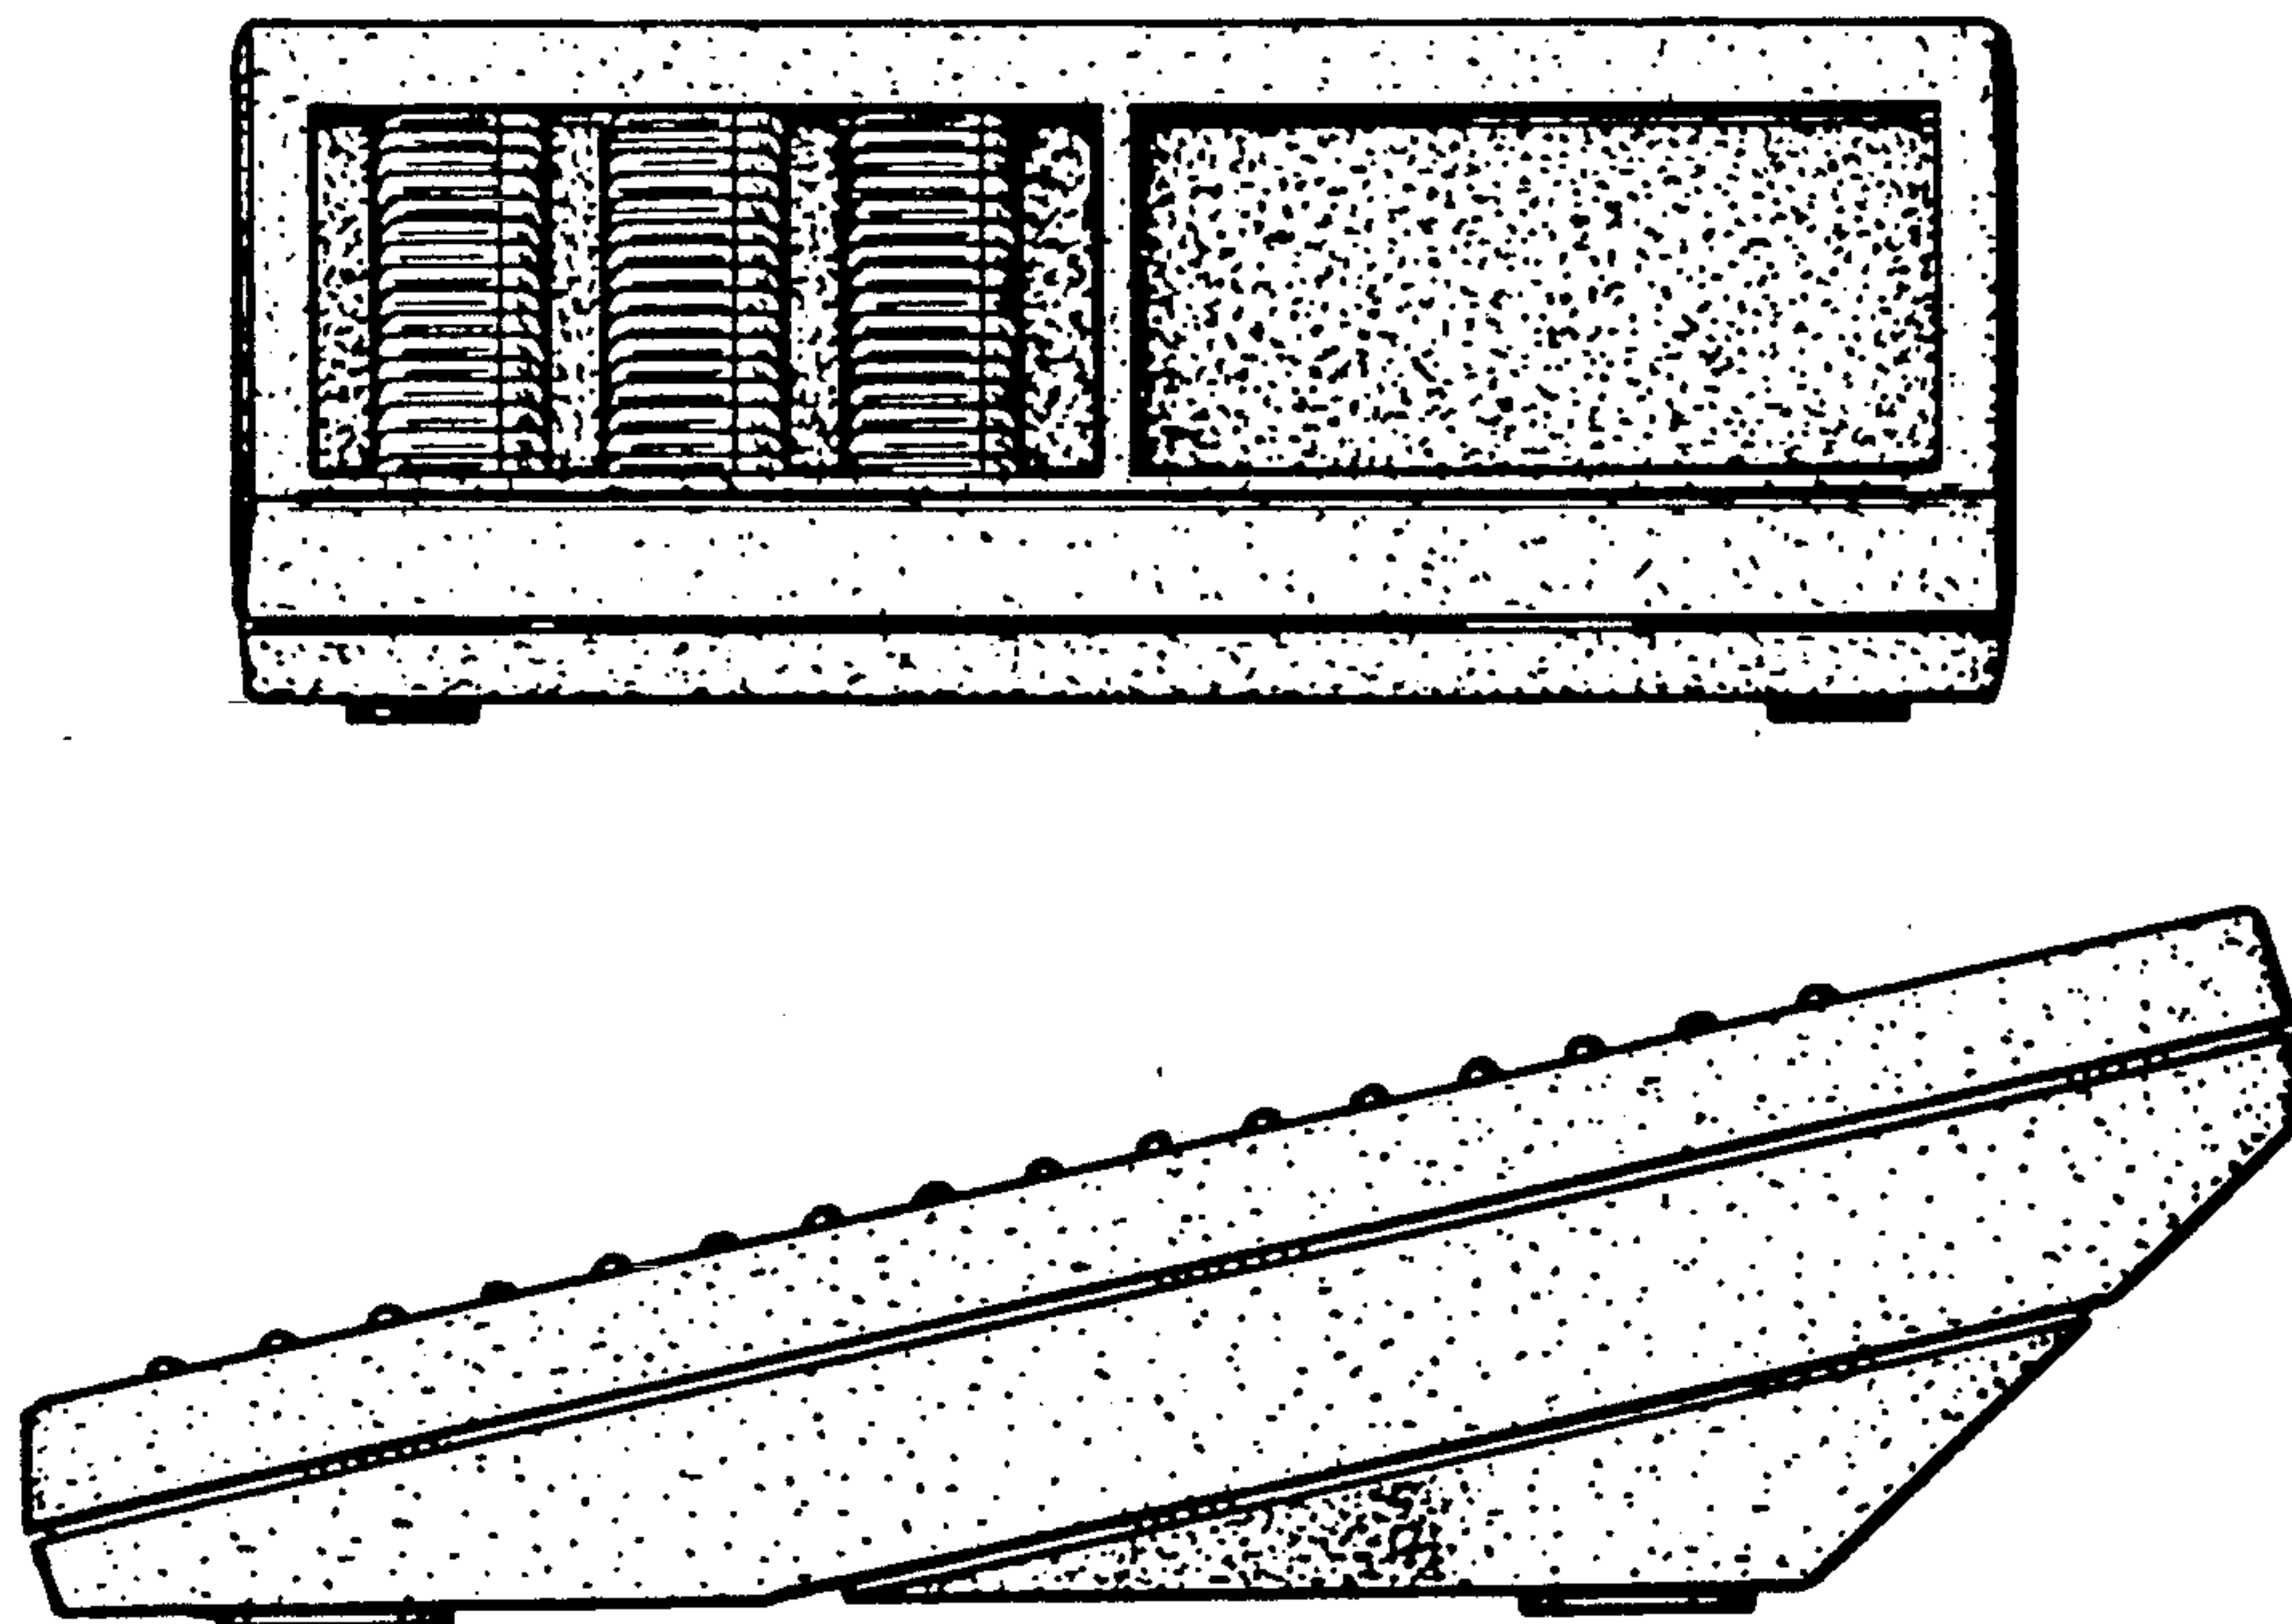

DESCRIPTION

FIG. 1 is a front elevational view of a telephone station unit showing my new design;

FIG. 2 is a top plan view thereof and for ease of illustration and with intent to show that the button pattern is repeated continuously in button columns 2 and 3;

FIG. 3 is a right side elevational view thereof with the opposite side being a mirror image thereof; and,

FIG. 4 is a rear elevational view thereof.
