[57] **CLAIM**

The ornamental design for a tripod for camera, substantially as shown.

DESCRIPTION

FIG. 1 is a front elevational view of a tripod for camera showing my new design;

FIG. 2 is a rear elevational view thereof;
 FIG. 3 is a top plan view thereof;
 FIG. 4 is a bottom plan view thereof;
 FIG. 5 is a left side elevational view thereof;
 FIG. 6 is an enlarged top plan view thereof, shown partially broken away for clarity of illustration;
 FIG. 7 is a right side elevational view thereof;
 FIG. 8 is a perspective view thereof;
 FIG. 9 is an enlarged front elevational view thereof, shown partially broken away for clarity of illustration;
 FIG. 10 is an enlarged cross-sectional view thereof, taken in the direction of the arrows along line 10—10 of FIG. 9, shown partially broken away for clarity of illustration;
 FIG. 11 is an enlarged right side elevational view thereof, shown partially broken away for clarity of illustration;
 FIG. 12 is an enlarged cross-sectional view thereof, taken in the direction of the arrows along the line 12—12 of FIG. 11, shown partially broken away for clarity of illustration;
 FIG. 13 is a front elevational view thereof, the legs completely extended;
 FIG. 14 is a front elevational view thereof, the legs completely collapsed;
 FIG. 15 is an enlarged left side elevational view thereof showing a camera in broken lines mounted on the tripod; and,
 FIG. 16 is an enlarged left side elevational view thereof showing the tripod and broken line camera in FIG. 15 adjusted in a different position.
 The broken lines showing the camera in FIGS. 15 and 16 are for illustrative purposes only and form no part of the claimed design.
