[57] **CLAIM**

The ornamental design for a power transfer block for telephone systems or similar device, as shown and described.

DESCRIPTION

FIG. **1** is a front and upper left perspective view of a power transfer block for telephone systems or similar device showing our new design with the cover partially open;

FIG. **2** is a front elevational view of power transfer block for telephone systems or similar device showing our new design with the cover fully open;

FIG. **3** is a bottom plan view thereof;

FIG. **4** is a right side elevational view of a power transfer block for telephone systems or similar device showing our new design with the cover partially open;

FIG. **5** is a top plan view thereof;

FIG. **6** is a right side elevational view of a power transfer block for telephone systems or similar device showing our new design with the cover fully closed;

FIG. **7** is a top plan view thereof;

FIG. **8** is a rear elevational view thereof; and,

FIG. **9** is a left side elevational view thereof.

The terminals are partially shown in FIGS. **4** and **6** for convenience of illustration.

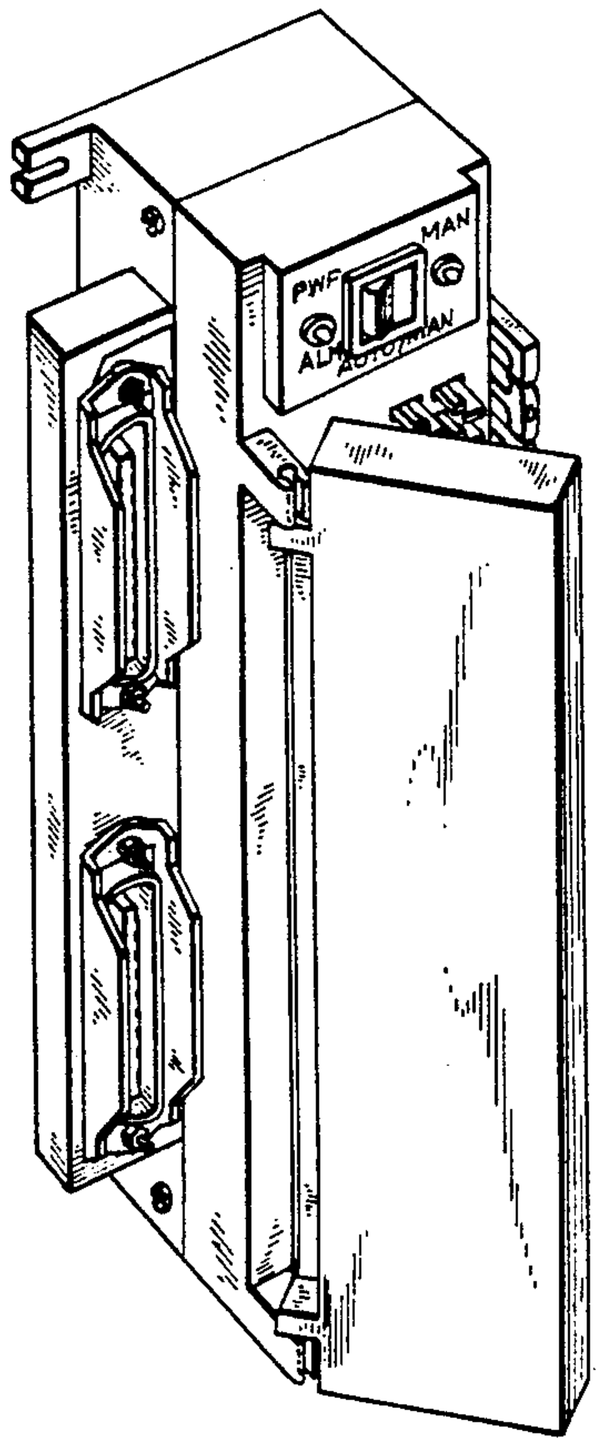

FIG. 1.

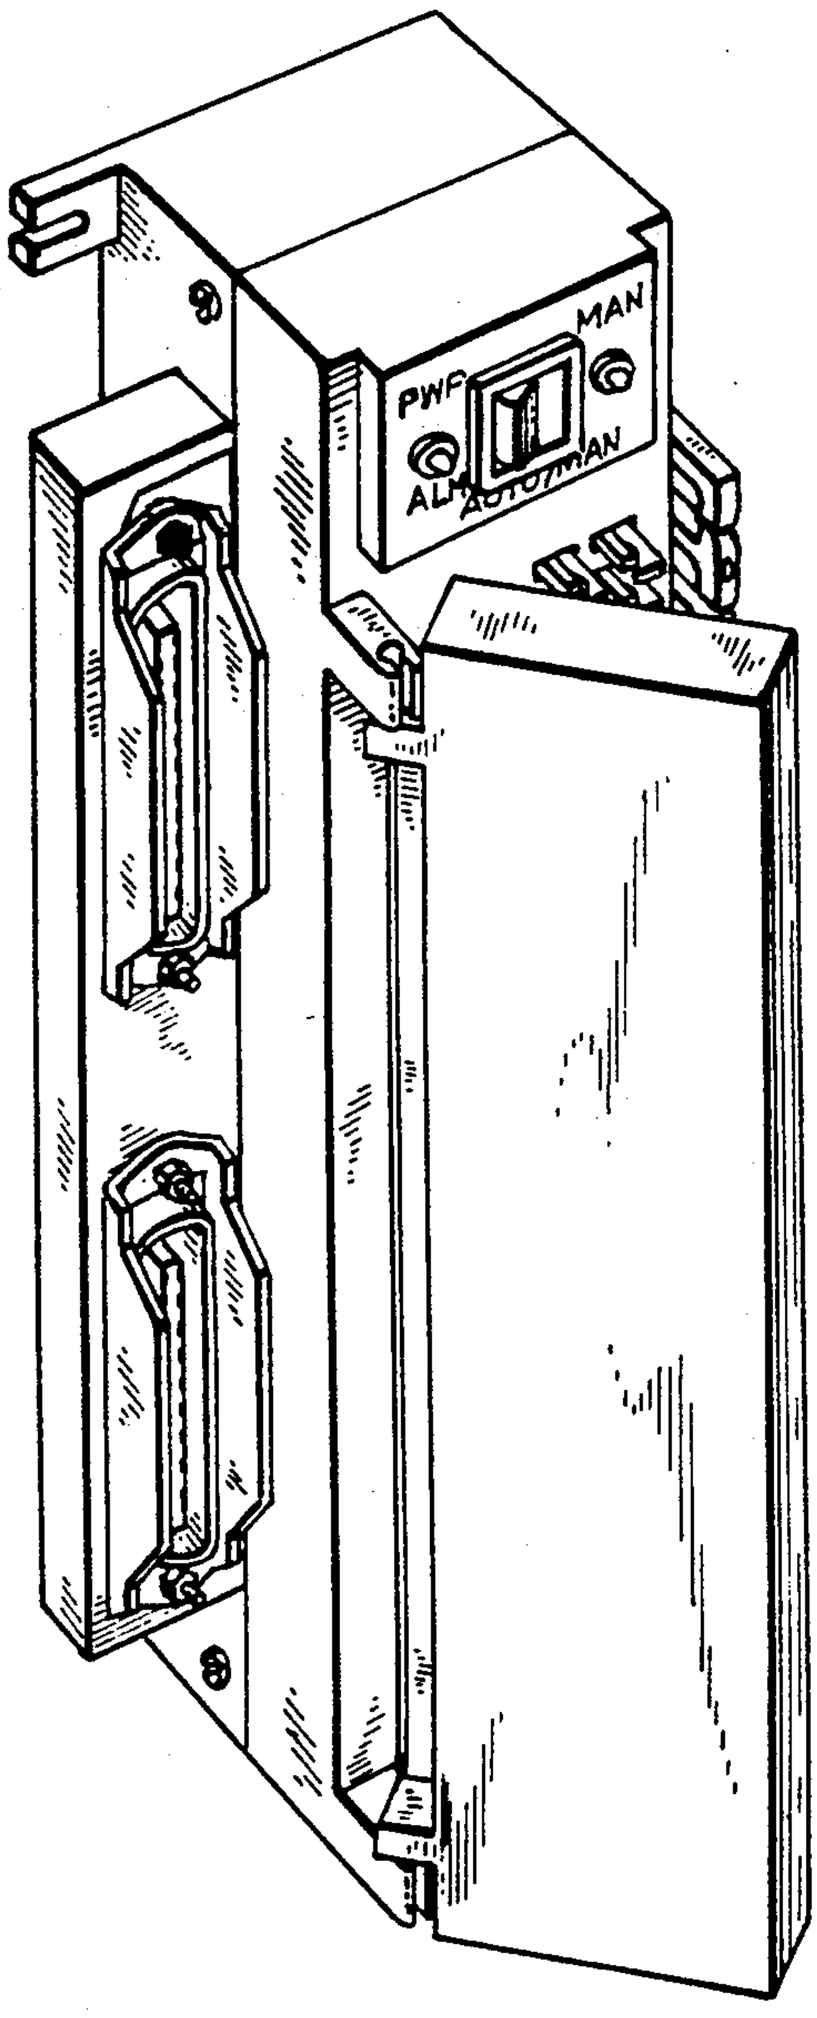

FIG. 2.

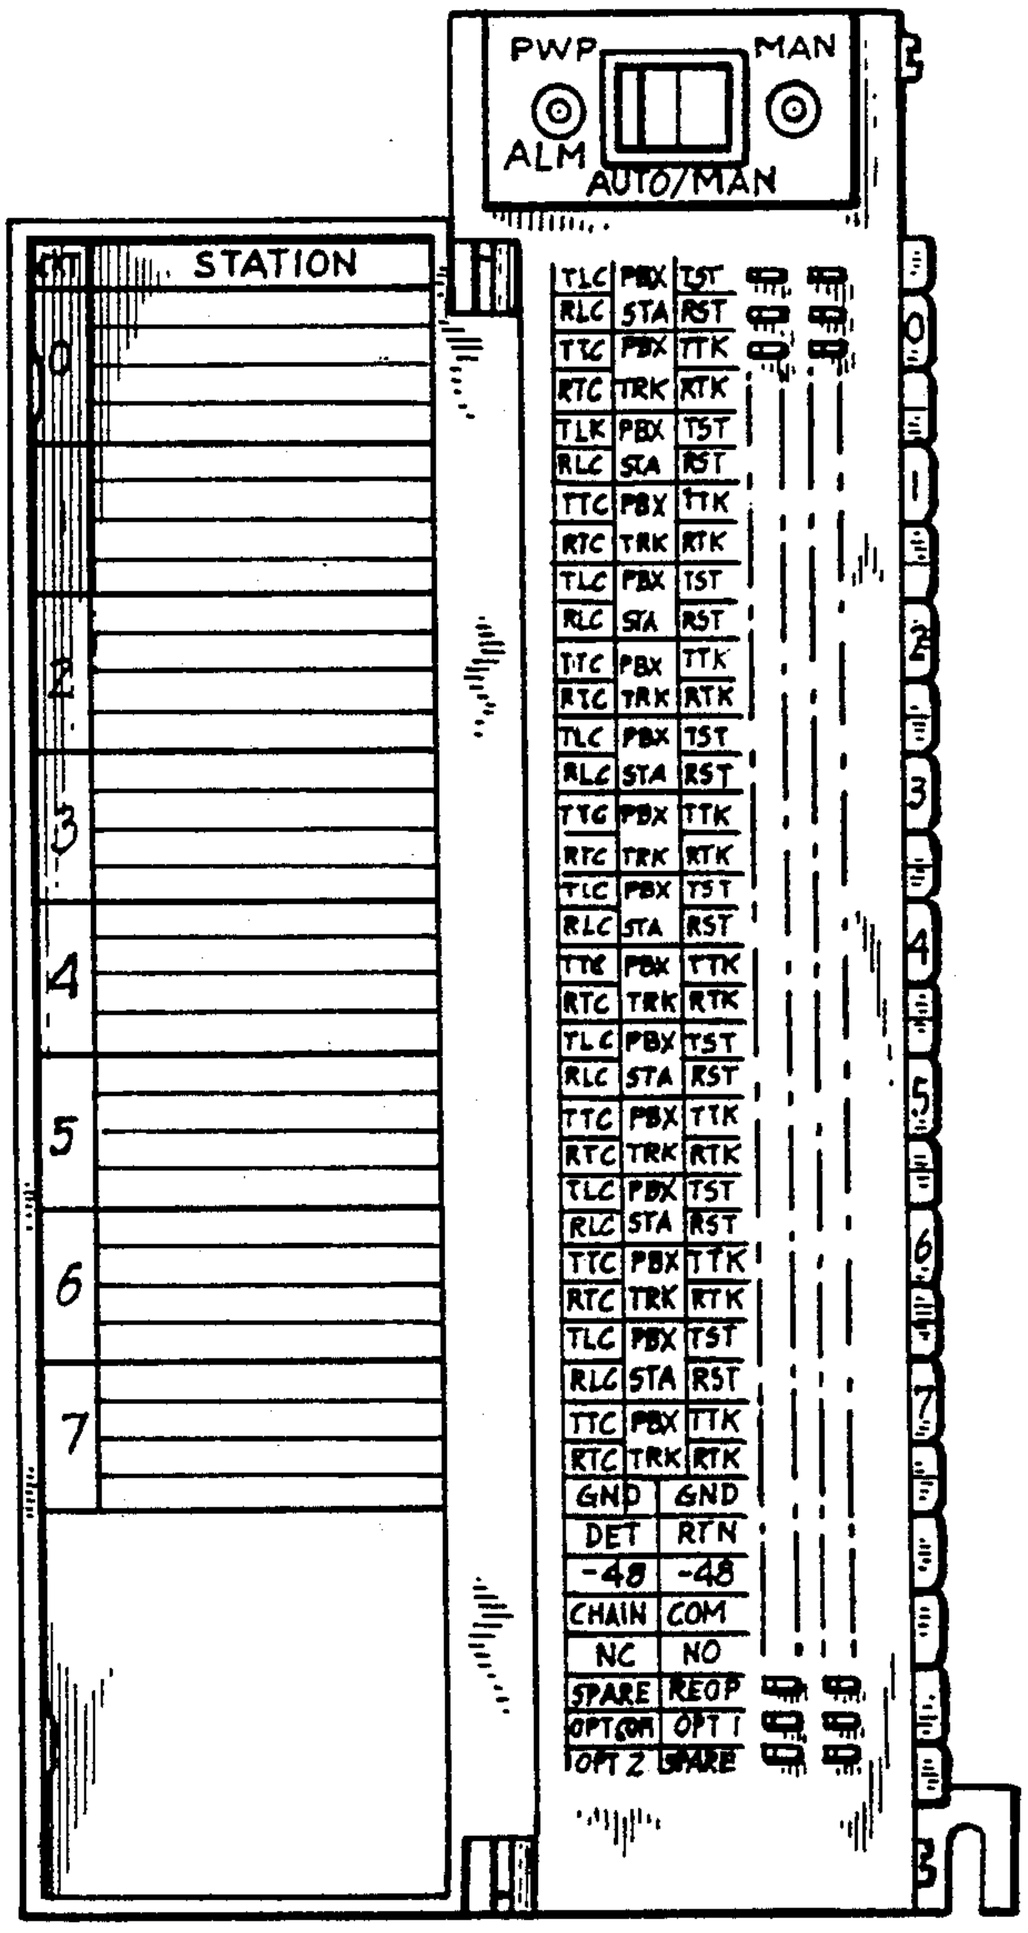

FIG. 3.

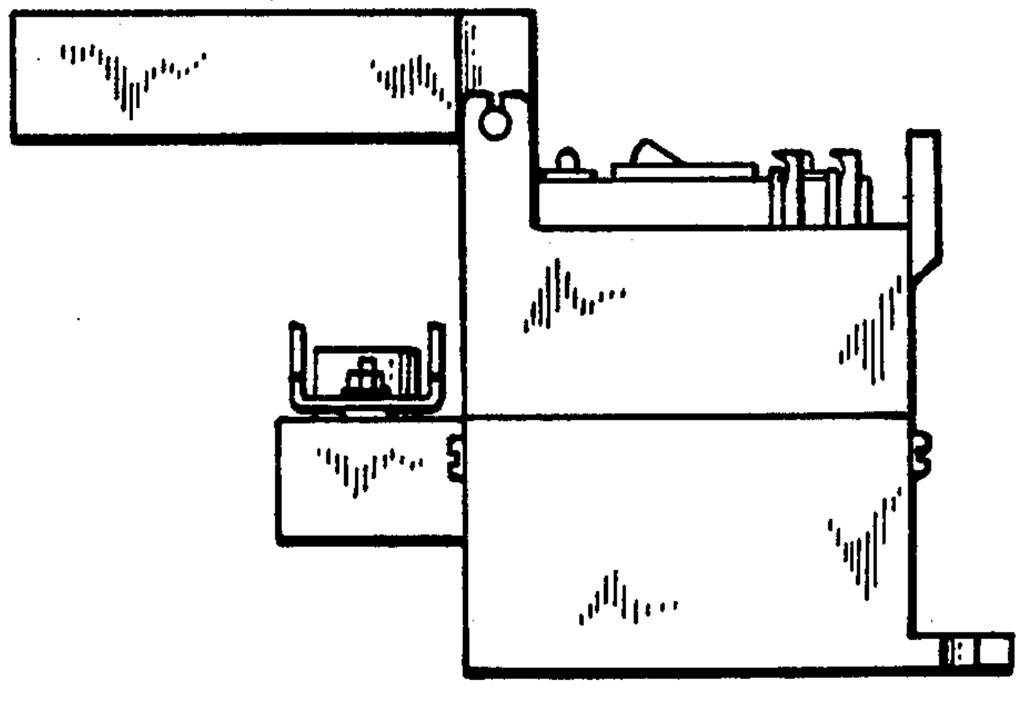

FIG. 4.

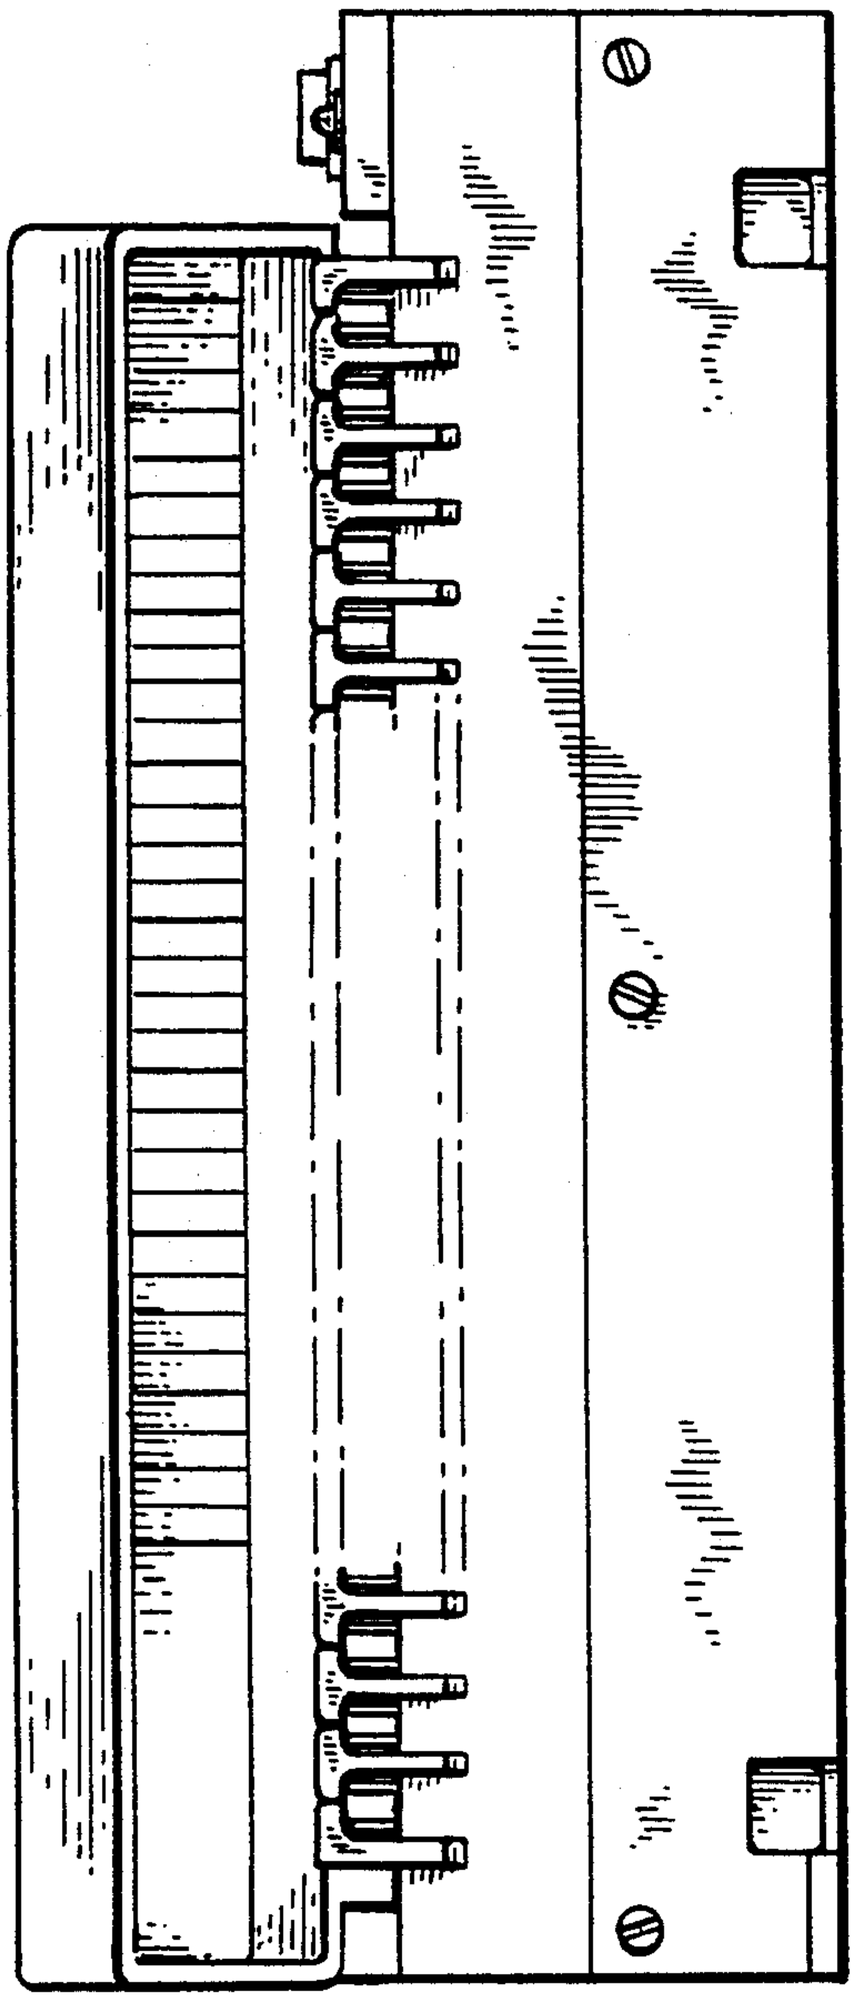

FIG. 6.

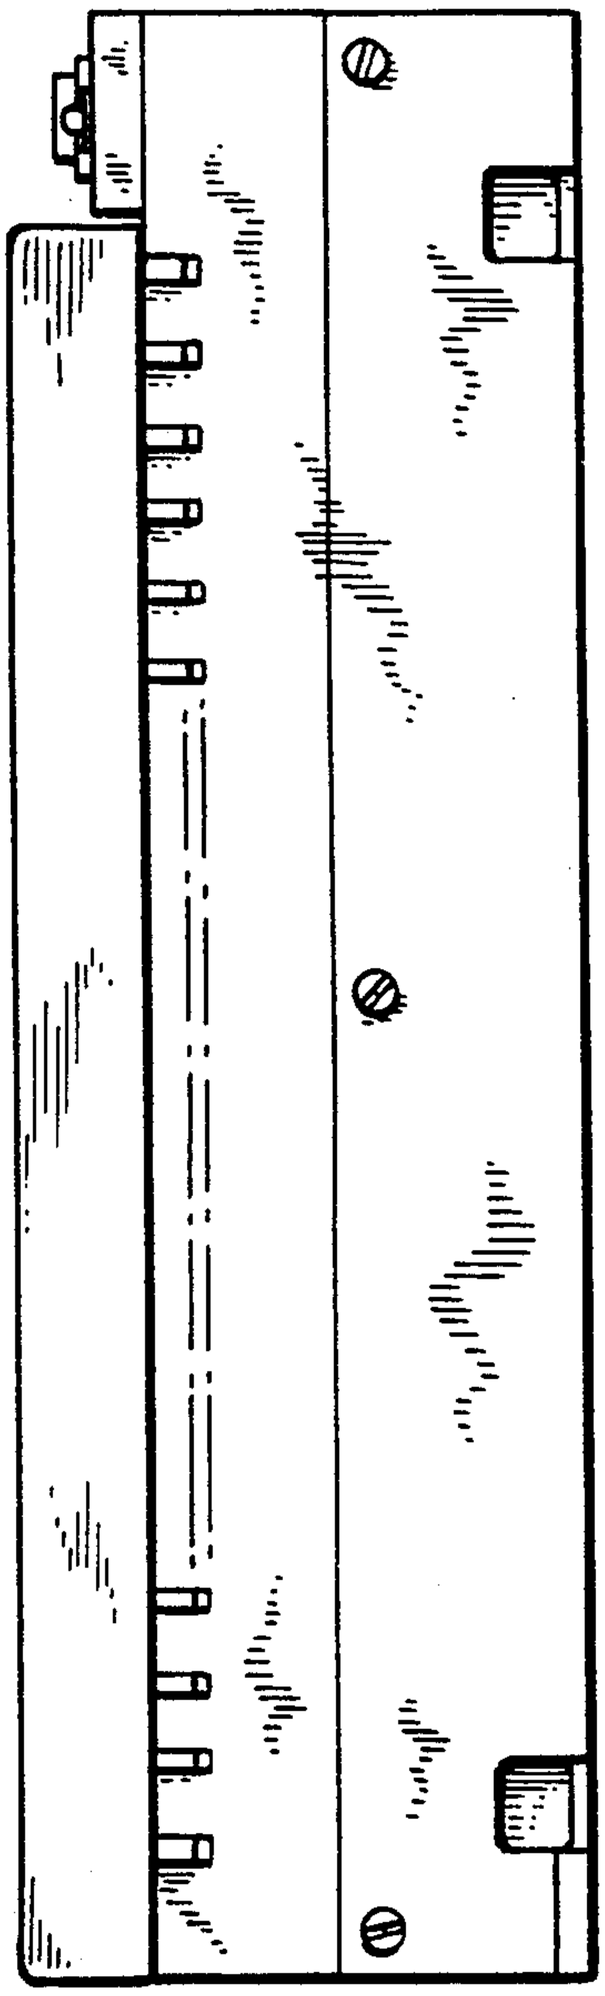

FIG. 5.

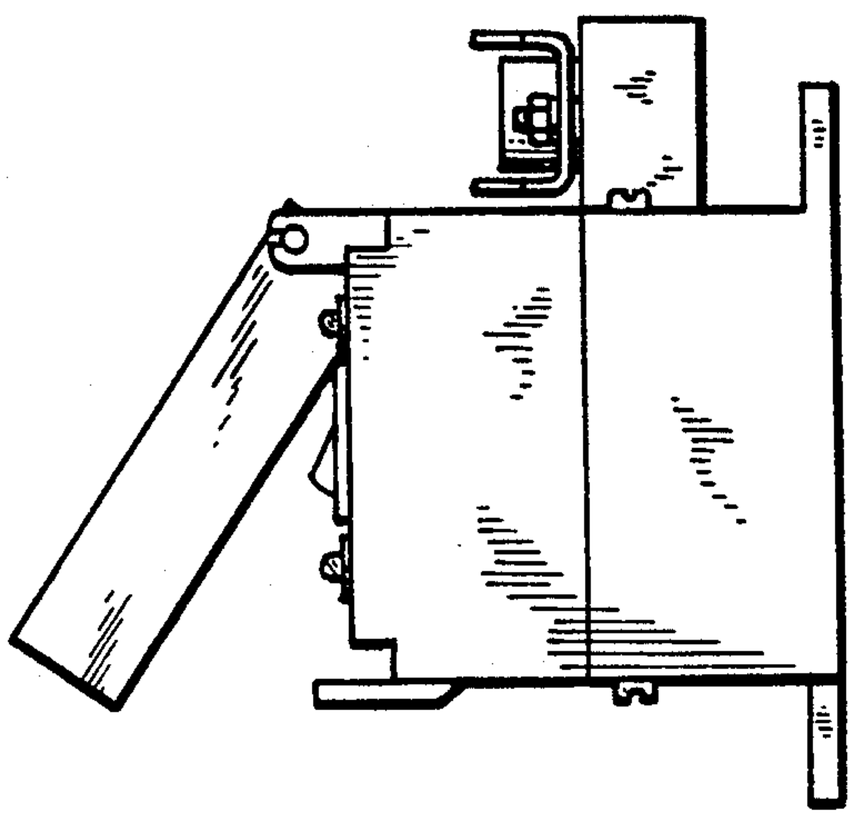

FIG. 7.

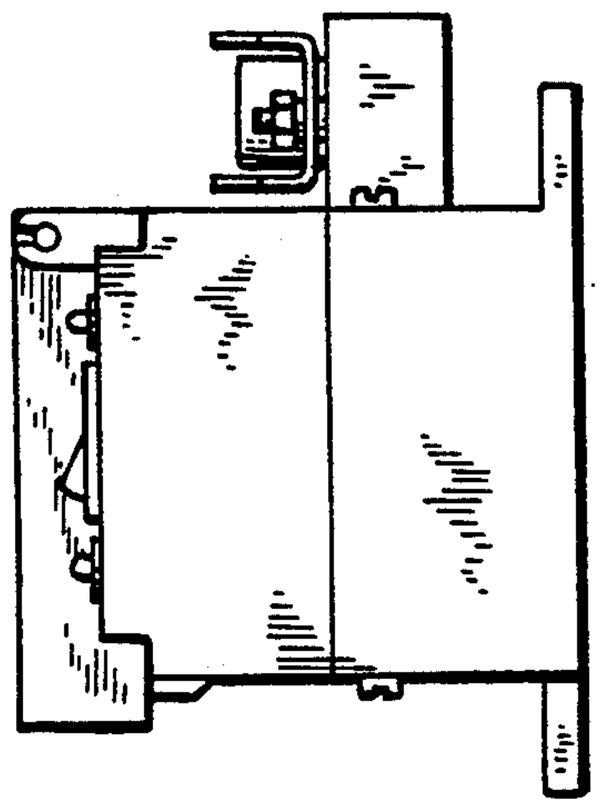

FIG. 8.

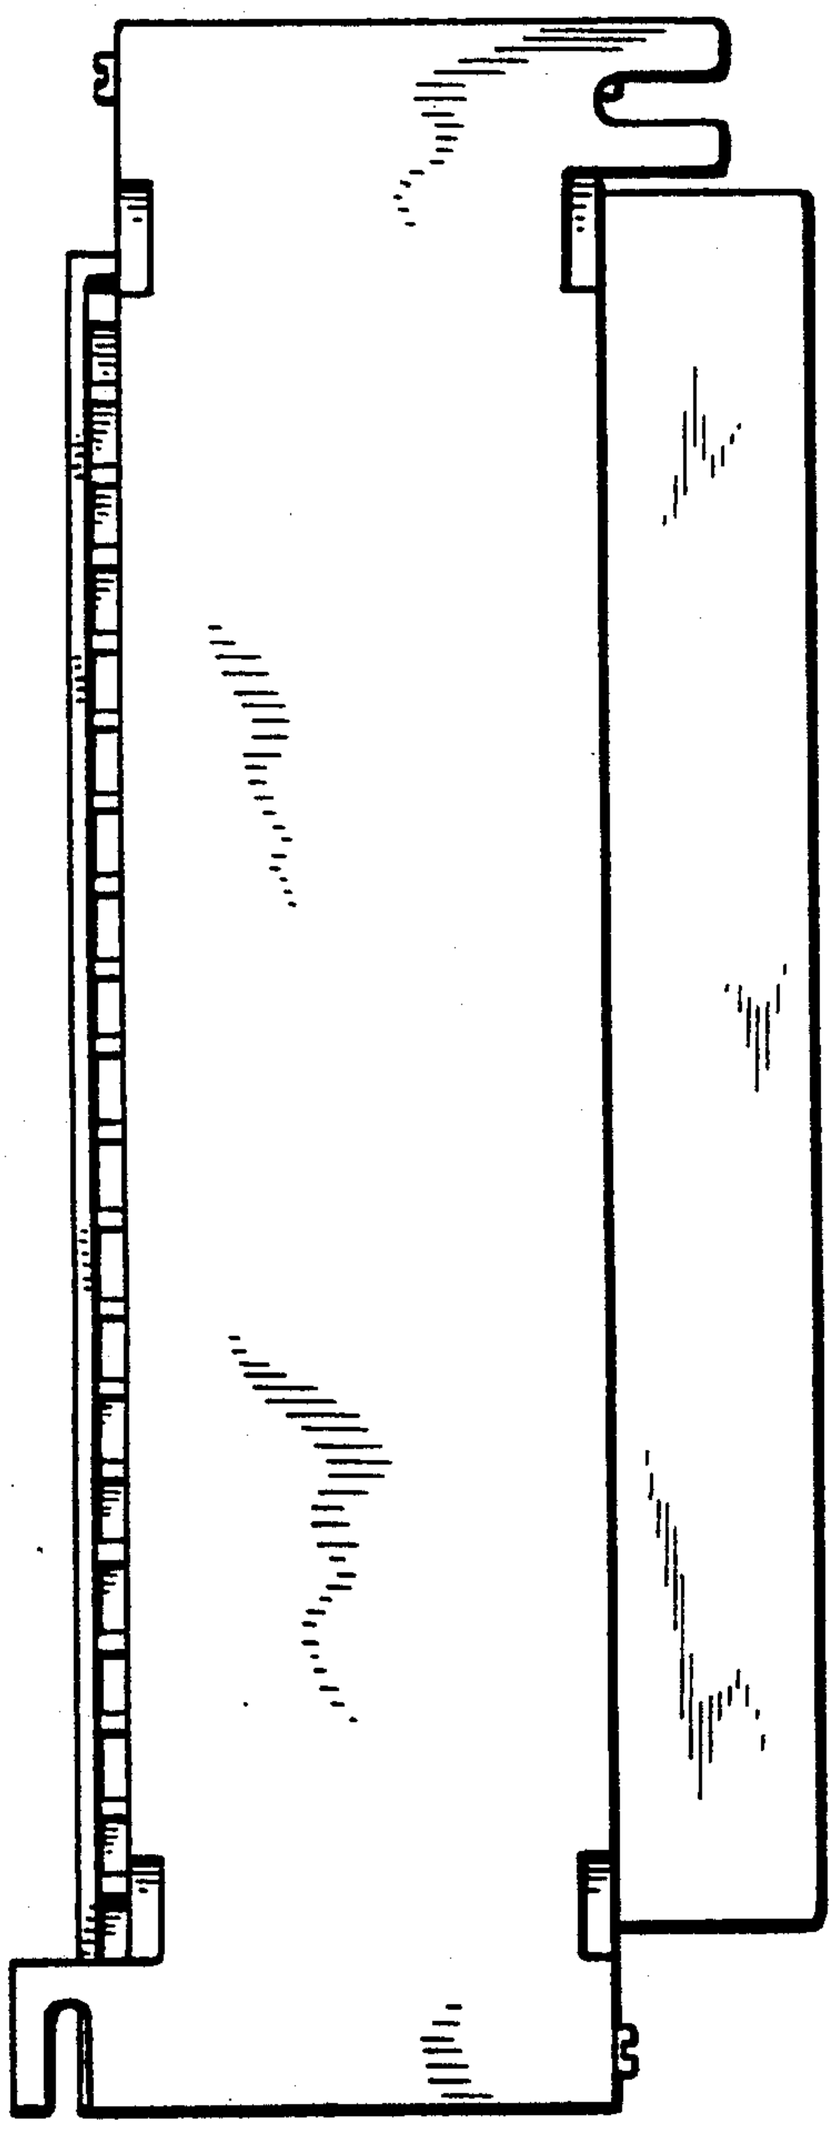

FIG. 9.
