US00D326452S

United States Patent [19]

Roegner

[11] **Patent Number: Des. 326,452**

[45] **Date of Patent: ** May 26, 1992**

[54] **TELEPHONE**

[75] Inventor: **George P. Roegner**, Vero Beach, Fla.

[73] Assignee: **Parker Instrument Corp.**, New York, N.Y.

[**] Term: **14 Years**

[21] Appl. No.: **680,264**

[22] Filed: **Apr. 4, 1991**

[52] **U.S. Cl.** **D14/138**; D14/147

[58] **Field of Search** D14/137, 138, 147, 148, D14/248; 379/440, 441, 428, 433, 61

Primary Examiner—Horace B. Fay, Jr.

[57] **CLAIM**

The ornamental design for a telephone, as shown and described.

DESCRIPTION

FIG. **1** is a front elevational view of a telephone in a first extended position, showing a first embodiment of my new design;

FIG. **2** is a front elevational view of the telephone of FIG. **1** in a second, retracted position;

FIG. **3** is an elevational view looking at the left side of FIG. **2**, the right side of FIG. **2** being a mirror image of the left side;

FIG. **4** is a rear elevational view of FIG. **1**;

FIG. **5** is an end elevational view looking at the top of FIG. **2**;

FIG. **6** is an end elevational view looking at the bottom of FIG. **2**;

FIG. **7** is a front elevational view of a telephone in a first extended position, showing a second embodiment of my new design;

FIG. **8** is a front elevational view of the telephone of FIG. **7** in a second, retracted position;

FIG. **9** is an elevational view looking at the left side of FIG. **8**, the right side of FIG. **8** being a mirror image of the left side;

FIG. **10** is a rear elevational view of FIG. **7**;

FIG. **11** is an end elevational view looking at the top of FIG. **8**;

FIG. **12** is an end elevational view looking at the bottom of FIG. **8**;

FIG. **13** is a front elevational view of a telephone in a first extended position, showing a third embodiment of my new design;

FIG. **14** is a front elevational view of the telephone of FIG. **13** in a second, retracted position;

FIG. **15** is an elevational view looking at the left side of FIG. **14**, the right side of FIG. **14** being a mirror image of the left side;

FIG. **16** is a rear elevational view of FIG. **13**;

FIG. **17** is an end elevational view looking at the top of FIG. **14**; and,

FIG. **18** is an end elevational view looking at the bottom of FIG. **14**.
