[57] CLAIM

The ornamental design for display rack, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a display rack showing my new design the broken line showing of a support housing being for illustrative purposes only; FIG. 2 is a right side elevational view, the individual rack units having been rotated to an alternate position and the broken line showing of a support housing for illustrative purposes only; FIG. 3 is a front elevational view shown broken away for convenience of illustration; FIG. 4 is a top plan view; FIG. 5 is a right side elevational view shown broken away for convenience of illustration; FIG. 6 is a left side elevational view shown broken away for convenience of illustration; and, FIG. 7 is a rear elevational view thereof on a reduced scale. FIGS. 2-6 have been shown on an enlarged scale with respect to FIG. 1. The undisclosed bottom surface segments are conventionally flat and unadorned.
