[57] CLAIM

The ornamental design for a sunroom, as shown and described.

DESCRIPTION

FIG. 1 is a right side elevational view of a sunroom

showing my new design, the left side being a mirror image thereof;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a top plan view thereof;

FIG. 4 is a front, top, right side perspective view thereof;

FIG. 5 is a front, top, right side perspective view of a second embodiment, the left side being a mirror image of the right;

FIG. 6 is a front, top, right side perspective view of a third embodiment, the left side being a mirror image of the right;

FIG. 7 is a front, top, right side perspective view of a fourth embodiment, the left side being a mirror image of the right;

FIG. 8 is a front, top, right side perspective view of a fifth embodiment, the left side being a mirror image of the right;

FIG. 9 is a front, top, right side perspective view of a sixth embodiment, the left side being a mirror image of the right;

FIG. 10 is a front, top, right side perspective view of a seventh embodiment, the left side being a mirror image of the right;

FIG. 11 is a front, top, right side perspective view of an eighth embodiment, the left side being a mirror image of the right;

FIG. 12 is a front, top, right side perspective view of a ninth embodiment;

FIG. 13 is a front, top, right side perspective view of a tenth embodiment, the left side being a mirror image of the right; and,

FIG. 14 is a front, top, right side perspective view of an eleventh embodiment, the left side being a mirror image of the right.

In all embodiments the rear fits against another structure, as does the left side in FIG. 12.
