[57] CLAIM

The ornamental design for a multi-compartment trash receptacle, as shown and described.

DESCRIPTION

FIG. 1 is a front and top perspective view of a multi-compartment trash receptacle showing my new design; FIG. 2 is a side elevational view thereof, the opposite side view being a mirror image of that shown; FIG. 3 is a top plan view thereof; FIG. 4 is a bottom plan view thereof; FIG. 5 is a top perspective view of one of the smaller canisters of the trash receptacle; FIG. 6 is a top perspective view of the other smaller canister of the trash receptacle with its lid open; FIG. 7 is a rear perspective view of the larger canister of the trash receptacle;

FIG. 8 is a front perspective view of the larger canister of the trash receptacle with its lid open;

FIG. 9 is a top plan view thereof, with the two smaller canisters connected together and separated from the larger canister the lid of the larger container is omitted for clarity of illustration;

FIG. 10 is a front top perspective view of a second embodiment of the multi-canister trash receptacle;

FIG. 11 is a side elevational view of FIG. 10, the opposite side view being a mirror image of that shown;

FIG. 12 is a top plan view of FIG. 10;

FIG. 13 is a bottom plan view of FIG. 10;

FIG. 14 is a top perspective view of a one of the smaller canisters of FIG. 10;

FIG. 15 is a top perspective view of the other smaller canisters of FIG. 10, with its lid open;

FIG. 16 is a rear and side perspective view of the larger canister of FIG. 10, the opposite side view being a mirror image of that shown;

FIG. 17 is a top perspective view of the larger canister of FIG. 10 with its lid open;

FIG. 18 is a top plan view of FIG. 10, with the three canisters separated. The lid of the larger canister is omitted for clarity of illustration;

FIG. 19 is a front and top perspective view of a third embodiment of the multi-canister trash receptacle;

FIG. 20 is a side elevational view of FIG. 19, the opposite side view being a mirror image of the shown;

FIG. 21 is a top plan view of FIG. 19;

FIG. 22 is a bottom plan view of FIG. 19;

FIG. 23 is a top and side perspective view of one of the smaller canisters of FIG. 19, with its lid open;

FIG. 24 is a top and side perspective view of the other smaller canister of FIG. 19;

FIG. 25 is a rear perspective view of the larger canister of FIG. 19;

FIG. 26 is a front perspective view of the larger canisters of FIG. 19 with its lid open; and,

FIG. 27 is a top plan view of FIG. 19, with the two smaller canisters connected but separate from the larger canister.

The lid of the larger canister is omitted for clarity of illustration.
