[57] **CLAIM**

The ornamental design for a power seat control unit for vehicular driver and passenger seats, as shown and described.

DESCRIPTION

FIG. 1 is a front and upper right perspective view of a power seat control unit for vehicular driver and passenger seats showing our new design. The broken line showing of the vehicle console is included for the purpose of illustrating environmental elements only and forms no part of the claimed design.

FIG. 2 is a front elevational view of a power seat control unit for vehicular driver and passenger seats showing our new design on an enlarged scale;

FIG. 3 is a right side elevational view thereof, the left side elevational view thereof being a mirror image; and, FIG. 4 is a top plan view thereof.

FIG. 1

FIG. 2

FIG. 3

FIG. 4
