[57] **CLAIM**

The ornamental design for a telecommunication device  
with hinged cover.

**DESCRIPTION**

FIG. 1 is a perspective view of a telecommunication  
device showing my new design, with its hinged cover in  
a partial open position;  
FIG. 2 is a front elevational view thereof with its  
hinged cover in closed position;  
FIG. 3 is a front elevational view thereof, with its  
hinged cover in full open position;  
FIG. 4 is a rear elevational view thereof, with its cover  
in closed position;  
FIG. 5 is a right side elevational view thereof, with its  
hinged cover in full position, the side opposite being a  
mirror image; and,  
FIG. 6 is a right side elevational view thereof, with its  
hinged cover in a closed position, the side opposite  
being a mirror image.  
The broken line showing of pushbuttons in FIGS. 1 and  
3 is for illustrative purposes only and forms no part of  
the claimed design.
