[57] CLAIM

The ornamental design for a multiple electrical outlet adapter, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a multiple electrical outlet adapter showing my new design; FIG. 2 is a left side elevational view thereof; FIG. 3 is a top plan view thereof; FIG. 4 is a bottom plan view thereof; FIG. 5 is a right side elevational view thereof; FIG. 6 is a back elevational view thereof; FIG. 7 is a bottom plan view of a multiple electrical outlet adapter showing a second embodiment of my new design, the top plan, front elevational, back elevational, left side elevational, and right side elevational views being the same as the first embodiment; FIG. 8 is a left side elevational view of a multiple electrical outlet adapter showing a third embodiment of my new design, the top plan, bottom plan, and back elevational views being the same as the first embodiment, the right side elevational view being a mirror image of FIG. 2. The broken lines are included only for the purpose of illustrating the positions of the receptacles and reset button and form no part of the claimed design; FIG. 9 is a front elevational view of a multiple electrical outlet adapter showing the third embodiment of my new design; FIG. 10 is a left side elevational view of a multiple electrical outlet adapter showing a fourth embodiment of my new design. The broken lines are included only for the purpose of illustrating the positions of the receptacles and form no part of the claimed design; FIG. 11 is a front elevational view thereof; FIG. 12 is a right side elevational view thereof. The broken lines are included only for the purpose of illustrating the positions of the receptacles and reset button and form no part of the claimed design; FIG. 13 is a bottom plan thereof; FIG. 14 is a back elevational view thereof, the top plan view being the same as the first embodiment; and, FIG. 15 is a front and upper right perspective view of the second and fourth embodiments with the front strip removed. The broken line showing is included for the purpose of illustrating the position of the receptacles and reset button only and forms no part of the claimed design.
