[57] **CLAIM**

The ornamental design for a circuit breaker slide interlock, as shown and described.

DESCRIPTION

FIG. 1 is a front and upper right perspective view of a

circuit breaker slide interlock showing my new design. The broken lines showing of the circuit breakers and panel are included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. 2 is a front elevational view of a circuit breaker slide interlock showing my new design on an enlarged scale;

FIG. 3 is a right side elevational view thereof;

FIG. 4 is a bottom plan view thereof, the top plan view thereof being a mirror image;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a front elevational view of a circuit breaker slide interlock showing a second embodiment of my new design. The broken lines showing of the circuit breakers and panel are included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. 8 is a front and upper right perspective view thereof shown on a reduced scale;

FIG. 9 is a right side elevational view of a circuit breaker slide interlock showing the second embodiment on the same scale as FIG. 2;

FIG. 10 is a rear elevational view thereof; and,

FIG. 11 is a left side elevational view thereof.

The bottom plan view of the second embodiment is the same as that of the first embodiment illustrated in FIG. 4. The top plan view of the second embodiment is a mirror image of the bottom plan view of the second embodiment.
