[57] CLAIM

The ornamental design for a coupler for transmittal of

data from remote computer to host computer, as shown
and described.

DESCRIPTION

FIG. 1 is a top front and side perspective view of a
coupler for transmittal of data from remote computer to
host computer showing my new design;

FIG. 2 is a side elevational view thereof, the opposite
side being identical in appearance;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a top front and side perspective view of a
portion of the coupler shown in FIG. 1 and it being
shown separately for clarity of illustration only;

FIG. 6 is a side elevational view thereof, the opposite
side being identical in appearance;

FIG. 7 is a front elevational view thereof, the undis-
closed rear being flat and unornamented;

FIG. 8 is a top plan view thereof;

FIG. 9 is a bottom plan view thereof;

FIG. 10 is a top rear and side perspective view of a
second portion of the coupler shown in FIG. 1 and it
being shown separately for clarity of illustration only;

FIG. 11 is a side elevational view thereof, the opposite
side being identical in appearance; and,

FIG. 12 is a rear elevational view thereof.

The undisclosed bottom plan view of the second por-
tion of the coupler is flat and unornamented and the
circular design element is shown in broken lines in the
views for illustrative purposes only and forms no part of
the claimed design.
