[57] **CLAIM**

The ornamental design for a gas pump trigger holder, as shown and described.

**DESCRIPTION**

FIG. 1 is a top plan view of a gas pump trigger holder showing my new design with the bottom plan view being a mirror image thereof;  
FIG. 2 is a front elevational view thereof; and,  
FIG. 3 is a right side elevational view thereof with the opposite side being a mirror image thereof.  
The difference in the rear elevational view resides in the smaller width of the winged ends.
