[57] CLAIM

The ornamental design for a combination telephone, facsimile and still picture television information communication apparatus for home or office use, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a combination telephone, facsimile and still picture television information communication apparatus for home or office use showing our new design;

FIG. 2 is a rear elevational view thereof;

FIG. 3 and 4 are respectively left and right side elevational views thereof;

FIG. 5 and 6 are respectively top and bottom plan views thereof;

FIG. 7 is a left side and front perspective view of the combination telephone communication apparatus et al. with the handset right side, and bottom perspective view spaced apart thereof;

FIG. 8 is a left side and front perspective view of the combination apparatus supported by its stand and having its handset cradled upon the main apparatus body;

FIG. 9 is a cross sectional view of FIG. 1 viewed from the right; and

FIG. 10 is a cross sectional view showing direction of facsimile paper flow.

The broken line showing of encircled numbers and symbols, and girdled words in FIG. 7 is for illustrative purposes only and forms no part of the claimed design.
