[57] CLAIM

The ornamental design for a battery connector cover, as shown and described.

DESCRIPTION

FIG. 1 is a top view of the battery connector cover of the present invention;
FIG. 2 is a right side view;
FIG. 3 is a left side view;
FIG. 4 is a bottom view;
FIG. 5 is a rear view;
FIG. 6 is a front view; and,
FIG. 7 is a perspective view of the battery connector cover of the present invention mounted atop an automobile battery (shown in broken line and broken away) and attached to a battery connector (not shown) with a battery cable (shown in broken line and broken away) extending therefrom.
The broken lines illustrate the environment in which the battery connector cover is used and are not part of the design thereof.
