[57] **CLAIM**

The ornamental design for a token holder, as shown and described.

**DESCRIPTION**

FIG. 1 is a front, left, top perspective view of a token/coin holder showing our new design; FIG. 2 is a top plan view thereof, the bottom plan view being identical;

FIG. 3 is a left side elevational view thereof, the right side elevational view being a mirror image thereof; FIG. 4 is a front end view thereof; FIG. 5 is a rear end view thereof; FIG. 6 is a top view of a modified embodiment thereof, the bottom plan view being identical; FIG. 7 is a left side elevational view thereof, the right side elevational view being a mirror image thereof; FIG. 8 is a front end view thereof; FIG. 9 is a rear end view thereof; FIG. 10 is a top view of another modified embodiment thereof, the bottom plan view being identical; FIG. 11 is a left side elevational view thereof, the right side elevational view being a mirror image thereof; FIG. 12 is a front end view thereof; FIG. 13 is a rear end view thereof; FIG. 14 is a top view of another modified embodiment thereof, the bottom plan view being identical; FIG. 15 is a left side elevational view thereof, the right side elevational view being a mirror image thereof; FIG. 16 is a front end view thereof; FIG. 17 is a rear end view thereof; FIG. 18 is a front, right, top perspective view of a further modified embodiment thereof; FIG. 19 is a top plan view thereof; FIG. 20 is a left side elevational view thereof, the right side elevational view being a mirror image thereof; FIG. 21 is a bottom plan view thereof; FIG. 22 is a front end view thereof, the rear end view being a mirror image thereof; FIG. 23 is a top plan view of an elongated modified embodiment of the embodiment shown in FIGS. 18-22; FIG. 24 is a left side elevational view thereof, the right side elevational view being a mirror image thereof; and, FIG. 25 is a bottom plan view thereof, the front and rear end views both being the same as FIG. 22.
