[57] **CLAIM**

The ornamental design for a combined container/bottle and applicators for cosmetics, as shown and described.

DESCRIPTION

FIG. 1 is a side elevational view of a combined container/bottle and applicators for cosmetics showing my new design, its opposite side being a mirror image;
 FIG. 2 is a partially exploded side elevational view thereof;
 FIG. 3 is a partially exploded top plan view of a second embodiment, said embodiment being identical to the

embodiment in FIG. 1 except for the appearance of the modified caps;
 FIG. 4 is a partially exploded bottom plan view of a third embodiment, said embodiment being identical to FIG. 1, except for the appearance of the modified caps;
 FIG. 5 is a front elevational view of FIG. 1 with the closure removed;
 FIG. 6 is a rear elevational view of FIG. 1 with the closure removed;
 FIG. 7 is a side elevational view of a fourth modified embodiment, its opposite side being a mirror image;
 FIG. 8 is a partially exploded side elevational view thereof;
 FIG. 9 is a partially exploded top plan view of a fifth embodiment, said embodiment being identical to the embodiment in FIG. 7 except for the appearance of the modified caps;
 FIG. 10 is a partially exploded bottom plan view of a sixth embodiment, said embodiment being identical to the embodiment in FIG. 7 except for the appearance of the modified caps;
 FIG. 11 is a front elevational view of FIG. 7 with the closure removed;
 FIG. 12 is a rear elevational view of FIG. 7 with the closure removed;
 FIG. 13 is a side elevational view of a seventh modified embodiment, its opposite side being a mirror image;
 FIG. 14 is a partially exploded side elevational view thereof;
 FIG. 15 is a partially exploded top plan view of an eighth embodiment, said embodiment being identical to the embodiment in FIG. 13 except for the appearance of the modified caps;
 FIG. 16 is a partially exploded bottom plan view of a ninth embodiment, said embodiment being identical to the embodiment in FIG. 13 except for the appearance of the modified caps;
 FIG. 17 is a front elevational view of FIG. 13 with the closure removed; and,
 FIG. 18 is a rear elevational view of FIG. 13 with the closure removed.
