[57] CLAIM

The ornamental design for a combined 5-slot programmable controller base and central processing unit, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a combined 5-slot programmable controller base and central processing unit showing my new design. The broken line showing of the conventional multi-pin connectors is included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. 2 is a rear elevational view thereof;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a right side elevational view thereof;

FIG. 7 is a front and upper right perspective view thereof; and,

FIG. 8 is a rear and lower left perspective view thereof.
