FIG. 1 is a top, front, right perspective view of a hot pad showing my new design; and, FIG. 2 is a bottom, rear, left perspective view thereof. Each pad design can be connected to one or more similar pad designs or to one or more other pad designs to build up a smaller or larger pad or decorating surface. The projecting part in one pad design is to be connected to a recess in adjacent pad design used. It can be laid upon a table to support a hot pot or the like. The pad can be formed from pastic material or wood material.
