[57] CLAIM

The ornamental design for a curbside modular recycling trash container, as shown and described.

DESCRIPTION

FIG. 1 is a front left side top perspective view of a curbside modular recycling trash container showing my new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a rear elevational view thereof;

FIG. 8 is a vertical cross-section view taken along lines 8—8 of FIG. 2;

FIG. 9 is a front left side top perspective view thereof with the hinged top open and the insert containers exploded outwardly;

FIG. 10 is a rear bottom right side perspective view of one of the identical insert containers;

FIG. 11 is a front top left side perspective view of a second embodiment of my new design, the rear view being identical to that shown in FIG. 7 and the bottom view being identical except that the insert trash containers are not present in this embodiment; and,

FIG. 12 is a top front right side perspective view of FIG. 11 with the hinged top in the open position.
