[57] CLAIM

The ornamental design for a keyboard for an information system terminal, as shown and described.

DESCRIPTION

FIG. 1 is a top front side perspective view of a keyboard for an information system terminal;
FIG. 2 is a top plan view of the keyboard for an information system terminal of FIG. 1 on an enlarged scale to illustrate the lettering on individual keys; and,
FIG. 3 is an enlarged front elevational view of the keyboard for an information system terminal of FIG. 1, the undisclosed side and rear elevational views are similar in appearance to the side and front elevational views shown.
