[57] CLAIM

The ornamental design for a facsimile transceiver copying machine, as shown and described.

DESCRIPTION

FIG. 1 is a front, top and right side elevational perspective view of a facsimile transceiver copying machine showing our new design;
FIG. 2 is a top plan view thereof;
FIG. 3 is a front elevational view thereof;
FIG. 4 is a right side elevational view thereof;
FIG. 5 is a left side elevational view thereof;
FIG. 6 is a rear elevational view thereof;
FIG. 7 is a bottom plan view thereof; and,
FIG. 8 is a perspective view in condition that a cover is opened and a paper cassette is pulled.
