[57] **CLAIM**

The ornamental design for a shoulder bib for infant care, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a shoulder bit for infant care showing my new design;
FIG. 2 is a bottom plan view thereof;
FIG. 3 is a front edge elevational view thereof, other edge views being substantially similar excepting the width; and,
FIG. 4 is an environmental perspective view thereof showing the protective cloth as it would appear draped over the shoulder, the portion of the drawing shown in broken lines representing a user of the protective cloth and forming no part of the claimed design.
The broken line portion of the drawings shown in FIGS. 1 and 2 represents conventional stitching.
