## [57] CLAIM

The ornamental design for a speaker frame assembly, as shown and described.

## DESCRIPTION

FIG. 1 is a perspective view of one embodiment of a speaker frame assembly design of the present invention showing the front side of the frame, the front side being

provided with an opening to accommodate a speaker having a corresponding configuration;

FIG. 2 is a left end elevational view of the embodiment shown in FIG. 1;

FIG. 3 is a right end elevational view of the embodiment shown in FIG. 1;

FIG. 4 is a back side elevational view of the embodiment shown in FIG. 1;

FIG. 5 is a top plan view of the embodiment shown in FIG. 1;

FIG. 6 is a bottom plan view of the embodiment shown in FIG. 1;

FIG. 7 is a perspective view of another embodiment of a speaker frame assembly design of the present invention showing the front side of the frame, the front side being provided with an opening to accommodate a speaker having a corresponding configuration;

FIG. 8 is a left end elevational view of the embodiment shown in FIG. 7;

FIG. 9 is a right end elevational view of the embodiment shown in FIG. 7;

FIG. 10 is a back side elevational view of the embodiment shown in FIG. 7;

FIG. 11 is a top plan view of the embodiment shown in FIG. 7;

FIG. 12 is a bottom plan view of the embodiment shown in FIG. 7;

FIG. 13 is a perspective view of still another embodiment of a speaker frame assembly design of the present invention showing the front side of the frame, the front side being provided with an opening to accommodate a speaker having a corresponding configuration;

FIG. 14 is a front side elevational view of the embodiment shown in FIG. 13;

FIG. 15 is a back side elevational view of the embodiment shown in FIG. 13;

FIG. 16 is a left end elevational view of the embodiment shown in FIG. 13 (the respective top plan view thereof being identical to one another in appearance); and,

FIG. 17 is a right end elevational view of the embodiment shown in FIG. 13 (the respective bottom plan view thereof being identical to the right end elevational view in appearance).
