[57] **CLAIM**

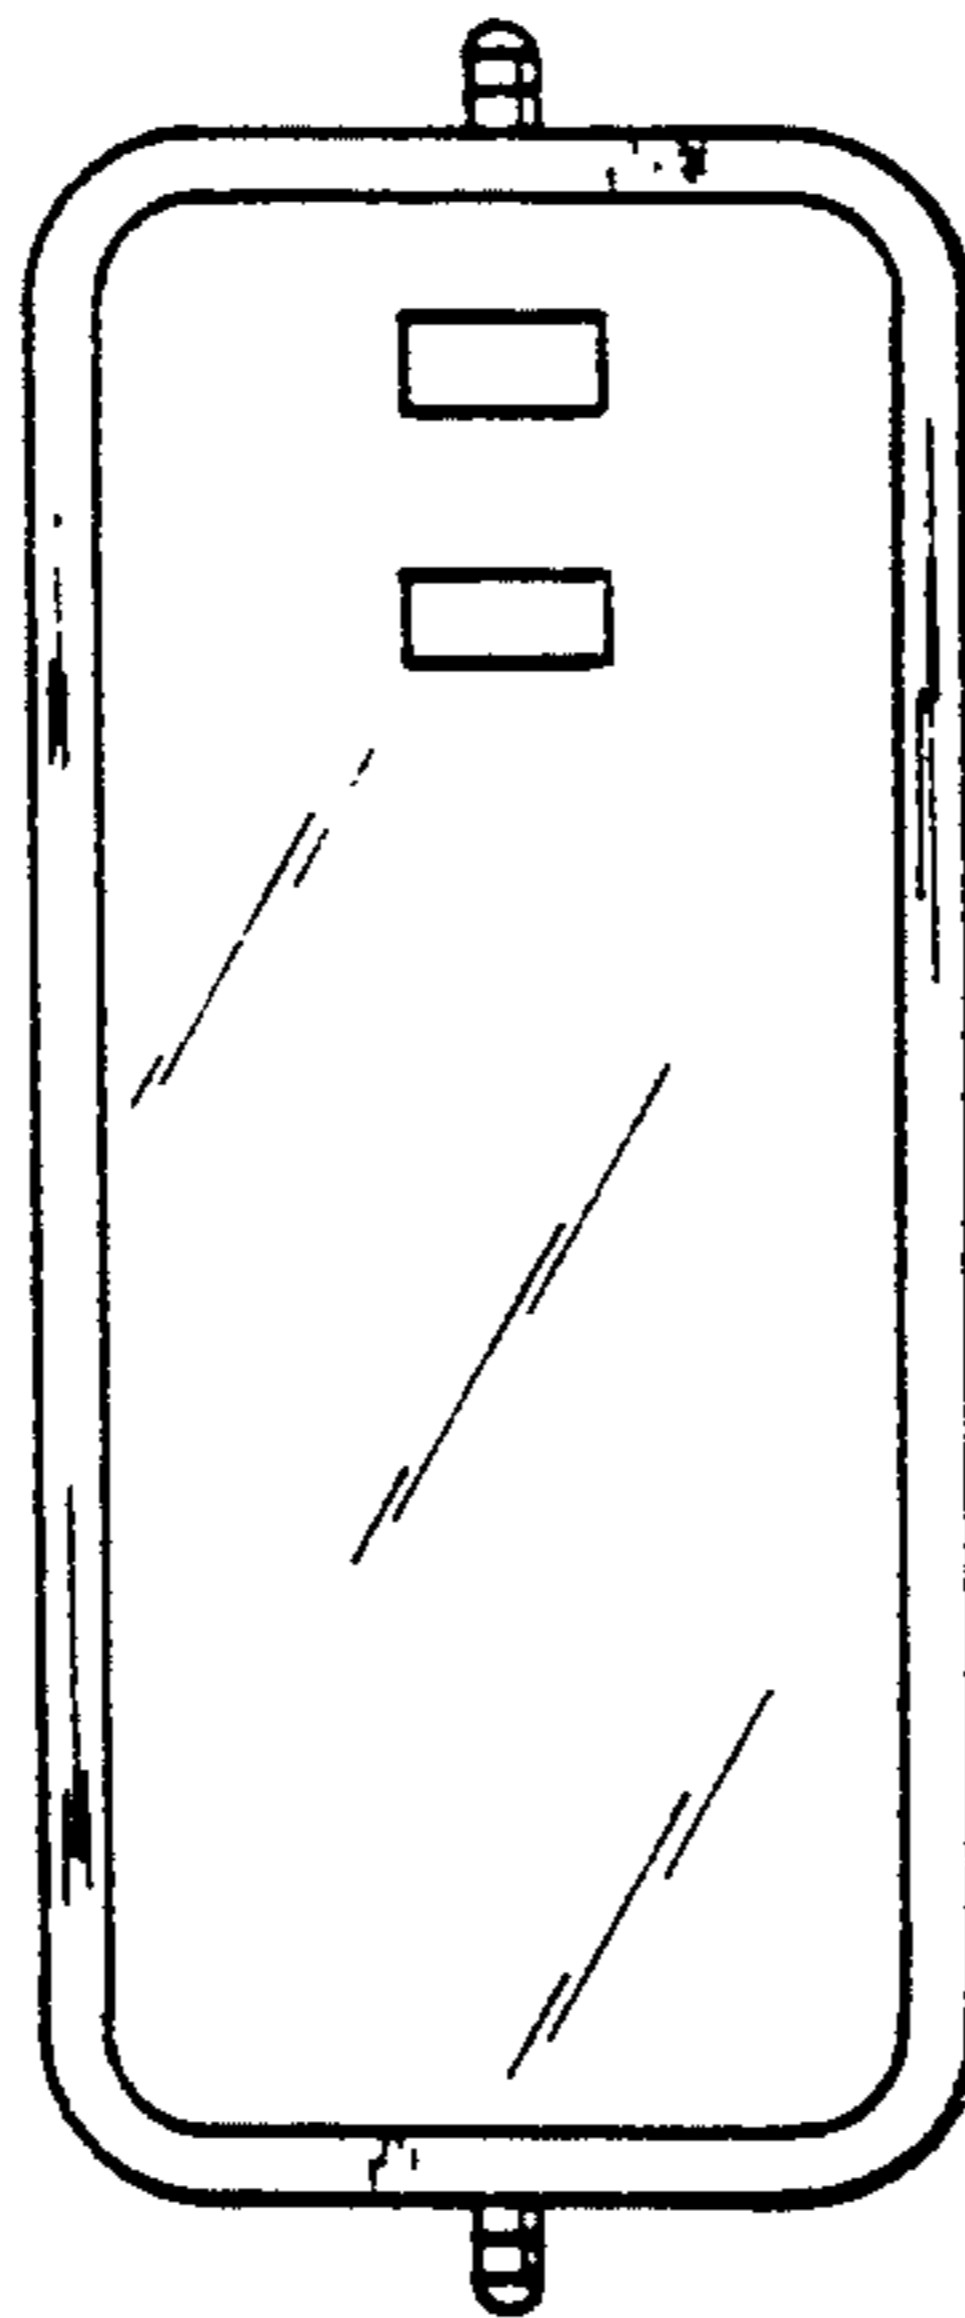

The ornamental design for a front face of a rear view mirror with multiple distance read-outs, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of a front face of a rear view mirror with multiple distance read-outs showing my new design; and,

FIG. 2 is a cross sectional view thereof taken along line 2—2 in FIG. 1.

The broken lines shown in FIG. 2 are for illustrative purposes only and form no part of the claimed design. The characteristic feature of my design resides in the multiple distance read-outs display being at one end of the front face of the rearview mirror as best illustrated in FIG. 1 of the drawing.
