[57] CLAIM

The ornamental design for the interfacing portion of an electrical connector, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of the female member of the interfacing portion of an electrical connector showing my new design, the male portion being omitted for clarity of illustration. The broken line showing throughout the drawing figures is included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. 2 is a left side elevational view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a rear elevational view thereof;

FIG. 7 is a top plan view of the male member of the interfacing portion of an electrical connector showing my new design, the female portion being omitted for clarity of illustration;

FIG. 8 is a left side elevational view thereof;

FIG. 9 is a front elevational view thereof;

FIG. 10 is a right side elevational view thereof;

FIG. 11 is a bottom plan view thereof;

FIG. 12 is a rear elevational view thereof;

FIG. 13 is a front and upper left perspective view of the female member of the interfacing portion of an electrical connector showing my new design, the male portion being omitted for clarity of illustration;

FIG. 14 is a front and upper right perspective view of the male member of the interfacing portion of an electrical connector showing my new design, the female portion being omitted for clarity of illustration; and,

FIG. 15 is a perspective view of the interfacing portion of an electrical connector showing my new design with the members coupled.
