[57] CLAIM

The ornamental design for an indirect lighting fixture, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of an indirect lighting fixture of our new design;
 FIG. 2 is a right side elevational view thereof on an enlarged scale, the left side being a mirror image thereof;
 FIG. 3 is a front elevational view thereof, the rear elevational view being a mirror image thereof;
 FIG. 4 is a bottom plan view thereof;
 FIG. 5 is a top plan view thereof;
 FIG. 6 is a front perspective view of a second embodiment of our new design;
 FIG. 7 is a right side elevational view thereof on an enlarged scale, the left side being a mirror image thereof;
 FIG. 8 is a front elevational view thereof, the rear elevational view being a mirror image thereof;
 FIG. 9 is a bottom plan view thereof;
 FIG. 10 is a top plan view thereof;
 FIG. 11 is a front perspective view of a third embodiment of our new design;
 FIG. 12 is a right side elevational view thereof on an enlarged scale, the left side being a mirror image thereof;
 FIG. 13 is a front elevational view thereof, the rear elevational view being a mirror image thereof;
 FIG. 14 is a bottom plan view thereof; and,
 FIG. 15 is a top plan view thereof.
 The broken line showing of lamps in the top plan view of the illustrated embodiments of the invention is for illustrative purposes only and forms no part of the claimed design.
