[57] **CLAIM**

The ornamental design for a boat, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view taken from the top, front and right side of a boat showing our new design; FIG. 2 is a left side elevational view thereof, the right side elevational view being the mirror image of the side shown;

FIG. 3 is a top plan view thereof;

FIG. 4 is a front elevational view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a left side view of a second embodiment thereof, the right side elevational view being the mirror image of the side shown;

FIG. 7 is a top plan view thereof;

FIG. 8 is a front elevational view thereof;

FIG. 9 is a rear elevational view thereof;

FIG. 10 is a left side elevational view of a third embodiment thereof, the right side elevational view being the mirror image of the side shown;

FIG. 11 is a top plan view thereof;

FIG. 12 is a front elevational view thereof;

FIG. 13 is a rear elevational view thereof;

FIG. 14 is a left side elevational view of a fourth embodiment thereof, the right side elevational view being the mirror image of the side shown, and the fourth embodiment being basically the same as the first except for a more forward position of the top two levels;

FIG. 15 is a left side elevational view of a fifth embodiment thereof, the right side elevational view being the mirror image of the side shown, and the fifth embodiment being the same as the third embodiment except that the top two levels are moved forward; and,

FIG. 16 is a left side elevational view of a sixth embodiment that is identical to the fifth, except that the base has been shortened at the rear.
