## [57] CLAIM

The ornamental design for a telecommunications test connector, as shown and described.

## DESCRIPTION

FIG. 1 is a right side elevational view of a telecommunications test connector showing our new design, the complete cord and plug being omitted for convenience of illustration;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a left side elevational view of a telecommunications test connector showing our new design with the complete cord and plug; and,

FIG. 5 is a front and upper right perspective view thereof with the plug rotated 180 degrees from that shown in FIG. 4 to clearly show the retainer clip.
